

TWELFTH BALLOT SHOWS NO CHANGE

Colonel Lewis Holds His Own on Twelfth Joint Ballot

BOESCHENSTEIN DROPS

Democratic Nominee for Short Term Sees Vote Drop off Ten Points

DEMOCRATS IN WRANGLE

SPRINGFIELD, ILL., MARCH 19.—With the votes again to day of the two Progressives who voted for him yesterday, Col. James Hamilton Lewis held his own on the twelfth joint ballot for the long term senatorship.

Charles Boeschenstein, Democratic caucus nominee for the short term, saw his vote of yesterday drop off ten points.

The Democrats were in a particularly bad mood when the joint session was called to order at noon and at once engaged in a wrangle that continued throughout the two hours which the joint session lasted.

Senator Waage set the ball rolling with a motion that the matter of the number of ballots to be taken be left to the discretion of the speaker. Representative Mitchell raised the point of order that the matter was not one of discretion, and Speaker McKinley held the point well taken.

Representative Shannon's motion that but one ballot be had for each of the terms prevailed after various motions opposing his proposal had been defeated.

Replying to Senator Gorman's challenge yesterday to refrain from voting for Colonel Lewis until the Lewis supporters were willing to vote for Boeschenstein, Senator Denyer, in explaining his vote on the long term ballot to day declared: "We will give Mr. Boeschenstein two votes for every one that they give Colonel Lewis."

Reprisals between the Lewis and Anti-Lewis Democrats had a material effect to day on the total votes recorded for Boeschenstein and Vrooman on the short term senatorships. Mr. Boeschenstein's total of 58 yesterday dropped to 48 to day while Vrooman's vote went up from 11 yesterday to 34 to day.

Twelfth Joint Ballot.
The twelfth joint ballot for the long term United States Senatorship resulted in no choice and was as follows:

Senate House Total		
Sherman	22	50
Lewis	21	65
King	1	3
Boeschenstein	1	2
Funk	1	21
John B. Payne	0	1
Raymond Robins	0	1
Wm. L. O'Connell	0	1
Berlyn	0	4
Present and not voting	5	12
Absent	4	2

Contingent Expense Committee.
Speaker McKinley named the contingent expense committee as follows:

J. H. Farrell, Democrat, chairman.
Democrats—Hoffman, Sullivan, Gareshe, Arthur Roe and Poorman.
Republicans—Kirkpatrick, J. E. Harris and Lovejoy.
Progressive—Snite.

Announces Selections.
Speaker McKinley announced his selections to day on the Appropriations and Public Utilities Committees. As has been forecasted, Representative D. E. Shanahan, the Republican floor leader, heads the appropriations committee as chairman. Representative John M. Rapp, Democrat of Fairfield, was named as chairman of the Public Utilities Committee.

The two committees as announced by the speaker are as follows:

Appropriations Committee.
Shanahan, chairman; Snelker, Rapp, Dudgeon, McLaughlin, Fice, Pervier, Mitchell, Kirkpatrick, Morris, Gorman, Campbell, Abbott, Fahy, F. W. Shepherd, Simpson, Henry Shepherd, Atwood, Butte, McNichols, Carter, Keck, Griffin, A. M. Foster, Huston, Lyon, Flag, Hoffman, Etherton, Scott, O'Rourke, Kilens, Risenhart, Schubert, Lovejoy, Igoe, W. W. McCormick, Roe, Burres, Briscoe, Hunt, Koch, Myers, McWilliams.

Public Utilities Committee.
Rapp, chairman; Burns, Costello, Devine, Etherton, H. A. Foster, Gillespie, Hoffman, Hubbard, Huston, Igoe, Karch, Poorman, Hilton, Weber, Williamson, R. E. Wilson, Walsh, Mitchell, M. McCormick, Munroe, J. M. Curran, Stedman, Holaday, Scanlan, Catlin, Miller, Smajkal, Hull, Butts, Abbott, King, Wm. Rowe Baker.

S. B. 192 (O'Connor). Appropriating \$10,000 for the state auditors fund for meeting expense of returning fugitives from justice. With emergency clause. Ayes 46; nays 0.

Text Book Question.
The senate committee on education had an extended hearing this afternoon on the school text book question concluding by postponing action on any measure on the subject until April.

Miss Margaret Haley of Chicago caused a postponement of action until that time in the face of strenuous opposition from Edwin R. Wright, president of the State Federation of Labor. Miss Haley pleaded for time in order that the members of the Chicago Federation of Labor may take action on the subject and designate the sort of a bill they prefer.

The measure under discussion by the committee provides for county uniformity. Wright demanded state uniformity, advocating passage of the bill providing for the state ownership of copyrights.

HUNDREDS BEG FOR FRIEDMANN TREATMENT
Crowd Surrounds German Physician Outside Hospital Until Squad of Police Reserves Clear Path For Him.

New York, March 19.—Four hundred women and children hummed in the automobile of Dr. Friedmann F. Friedmann this afternoon, begging him to treat them for tuberculosis.

The crowd surrounded the German physician outside the Hospital for Deformities and Joint Diseases and a squad of police reserves had to be called to make a path for him.

Physicians from all parts of the United States early in the day gathered at Mount Sinai hospital to watch Dr. Friedmann administer his vaccine, but were refused admission. The only other medical men at the clinic were three representatives of the government, at whose request other physicians were excluded. The hospital authorities explained that the government physicians feared that premature reports of the clinic would be made before the government's official report to the president.

Dr. Friedmann, it was said, had not made any request to have the others excluded.

Sixteen patients were treated at Mount Sinai hospital. After the demonstration Dr. John F. Anderson, one of the government physicians, left for Washington, where, it is said, Surgeon General Blue of the United States Public Health and Marine hospital service, will issue a bulletin Friday regarding the Friedmann vaccine and results of its use on patients here.

FIREMEN CLOSE THEIR CASE AGAINST RAILWAYS
Cross Examination of Statistician Closes Case of Firemen—Recess Ordered Until Friday to Permit Railroads to Prepare Their Case.

New York, March 19.—The Brotherhood of Locomotive Firemen and Enginemen today closed its case against the fifty-four eastern railroads in the arbitration proceedings over the firemen's demand for increased pay. Although the firemen introduced all the evidence they desired several days ago, their case was not formally closed until the cross examination of W. J. Lauck, their expert statistician, ended this afternoon. The three arbitrators ordered a recess until Friday to permit the railroads to prepare their case.

Mr. Lauck testified today that the gross income of all the railroads concerned was \$356,560,000 in 1912 as compared with \$333,975,000 in 1902. In 1912 he said the firemen were paid \$22,651,000 in wages and 1902 \$12,342,000.

Elisha Lee, for the railroads, called attention to the fact that while the gross income had increased but 53 per cent during the eleven years the firemen's wages had increased 87 per cent. But Mr. Lauck declared this an unfair comparison inasmuch as the increase in income was twelve times the increase paid the firemen. On the total amount paid in wages, he said, the firemen were receiving a smaller percentage today than they were eleven years ago.

SUFFRAGETTES PLAN ANOTHER WASHINGTON DEMONSTRATION
Will Hold Second Parade When Extra Session of Congress Convened On April 7th.

Washington, March 19.—Another parade in this city is being planned by the executive committee of the national women's suffrage association for April 7th, when the extra session of congress convenes. The time the parade will be neither long or so elaborate as the one held by disorder in the streets March 3rd. Five hundred and thirty-one women including representatives from each congressional district and from each state at large will form and march to the capitol, where they will present to the members of congress their arguments and petitions in favor of equal suffrage.

WILL CONFER WITH CONGRESS MEMBERS

President Will Make Himself as Accessible as Possible to Members

TO ENFORCE DISCIPLINE

Wilson Will Make Every Effort to Secure Passage of Approved Tariff Bill in House and Senate

OTHER WASHINGTON NEWS

WASHINGTON, MARCH 19.—President Wilson will confer frequently with members of the house and senate in the president's room at the capitol during the extra session of congress. This was announced at the white house late today.

The president intends to make himself as accessible as possible to members of congress on these days when tariff legislation will have reached its most important development. The president will go to the capitol in a spirit of friendly co-operation, there to consult with Democrats and Republicans alike in progress of legislation. He believes, however, that he should go to the capitol as party leader. He has always said that the president of the United States was the elected leader of his party, and that he particularly was charged by the people with the carrying out of party pledges. Mr. Wilson believes the tariff bill should be treated as a party measure. The announcement today that the finance committee of the senate and the ways and means committee of the house will work on the tariff bill in joint conference consulting the president often in line with his idea that the Democratic leaders in congress should draft a tariff bill which would stand or fall on its merits both in congress and before the country. He believes in enforcing party discipline, and after the leaders have approved the tariff bill he will make every effort to secure its passage in both houses without material alteration. The president had a busy day of it today. He met a number of members of congress on questions of appointments, received many visitors in the east room in the afternoon, and took a bracing automobile ride. It became known that W. J. Harris, chairman of the Democratic state committee of Georgia very likely would be chosen director of the census. It also was stated authoritatively at the white house that the nomination of Charles P. Neill to be commissioner of labor statistics, which failed of confirmation at the special session of the senate would be sent to the senate again when congress convenes April 7th.

Formally Congratulated.
Mr. Wilson was formally congratulated on his election to the presidency by a committee of the American Philosophical society, of which he is the eighth member to become chief executive of the nation.

The president also received a committee from the national conservation congress who told him that they wanted to dispel any impression that the organization was affiliated with the national Progressive party or any other political party. They declared their wish was for the use and development of the country's natural resources and that they approved his principle that "reservation is not conservation." The committee said that while it had not fixed a time or place, they might select Washington for their meeting late this year. The president said he would make every effort to attend.

First Conference Held.
The house and the president came together informally, this morning, for the first time on the "preliminaries" of tariff revision. A short conference between the president and Senator Simmons of the senate finance committee followed by a longer conference between the senate finance committee and Chairman Underwood of the house ways and means committee, laid the ground work for a series of three-cornered conferences that are to follow before the tariff revision bills are reported to the house in April. As a result of the discussion today, it was said by Mr. Underwood and Senator Simmons tonight that the two houses of congress practically will revision before the bills reach the house; and that the opinions and desires of President Wilson also will have been fully considered.

The fight over free wool decided by the committee on ways and means yesterday in favor of a 15 per cent duty will recur in the senate; and the reduction of the sugar tariff will also be a stumbling block there. While few individual items of tariff revision bills were considered by the subjects were canvassed and plans laid to attempt to reconcile the various factions in both bodies before beginning of actual debates in the house and senate. The senate finance committee will work informally with the house committee on ways and means and both will be

Back to his Lincoln home for the first time since the day after the election in November which placed Woodrow Wilson in the presidential chair and paved the way for his becoming a part of the national administration, William J. Bryan today received the enthusiastic greetings of the people of Nebraska from the time of his arrival this morning until late tonight he was a busy man and a center of attraction. An impromptu reception at his office shortly after his arrival during which he held short conferences with close political personal friends, was followed later by a more formal reception at a hotel when several hundred men and women welcomed him and extended congratulations.

In the afternoon Mr. Bryan made a short address at a joint session of the Nebraska legislature, repeating in part his speech made to the Illinois legislature the day before and adding to it his well known views on the direct election of United States senators and a brief reference to dollar diplomacy and the attitude of the United States government on the Chinese loan. Tonight at the Lincoln auditorium, Secretary Bryan was the guest of honor at a banquet tendered on the occasion of his 53rd birthday anniversary. Sharing the honors with Mr. Bryan at tonight's function were Governor Dunne of Illinois, who accompanied him from Springfield; Governor Hodges of Kansas, Governor Moore of Iowa, Nebraska, and J. B. Sullivan of Iowa.

Mr. Bryan, who had announced that his address would be of no political significance, was the last speaker on the list, but he gave careful attention to the speeches of the other gentlemen and joined heartily in the applause which greeted them.

The "dollar dinner" brought together a crowd of nearly fifteen hundred diners. It was essentially a "home folks" crowd, but there was a good attendance from other states, particularly from Kansas.

Leading Democrats of Nebraska, who have not always been in accord with the principles of Mr. Bryan, attended and joined in the demonstrations accorded him.

Lincoln, Neb., March 19.—William J. Bryan tonight heard himself lauded as the foremost exponent of the ideals of Democracy as the man who more than any other man made the nomination and election of Woodrow Wilson possible, and as a leading figure in bringing about a return of the government of the people.

In his reply Mr. Bryan disclaimed credit for doing more toward bringing the triumph of his party than should be expected one who had three times been honored by receiving the nomination for the presidency.

Mr. Bryan gave way no secrets of state, nor in his speech did he commit himself on any national policy which is not well known to the reading public.

He discussed the causes that have led to Democratic victory and in general promised that President Wilson and all Democrats who devote themselves the next four years to bringing the government closer to the people. As to the praise bestowed upon him, he said, he was only one in bringing about the result.

CONSTANTINE WILL TAKE OATH FRIDAY

Hope is Expressed That New King Will be Pro- claimed Constantine XII

TO TAKE OATH OF FEALTY

Chamber of Deputies Will Take Oath of Fealty to New Ruler Today—Ministry Will Resign

MOURN DEATH OF KING GEORGE

ATHENS, MARCH 19.—Constantine will take the oath as King of the Hellenes on Friday. He will arrive at Athens tomorrow.

The hope is expressed that the king will be proclaimed as Constantine XII, the last Byzantine emperor having been Constantine XI.

The chamber of deputies will be summoned tomorrow to take the oath of fealty to the new king after which the ministry will resign.

Messages of condolences and sympathy for the royal family, the Greek government and the Greek nation poured into the capital all day. The first message from the head of a nation received by Queen Olga came from President Wilson.

All Greece mourns the death of a sovereign who had done so much, particularly during the past year, to advance the prestige of the nation.

Emblems of sorrow are displayed on all sides and manifestations of grief are even marked among the poor and lowly than among those of the higher classes.

Premier Venizelos, after eulogizing King George today for his great services during his long reign asked the chamber of deputies to acclaim Constantine king, to which the deputies responded with cheers.

In his first message to the Greek army, King Constantine promised that he would even concentrate all his efforts to his land and sea forces to which war had bound him.

Queen Olga accompanied by several members of the royal family is now on her way to Saloniki. She suffered greatly from the shock of the announcement of the king's taking off, but before her departure she had resolved on which had actuated her early in the war in going to the field to care for the wounded.

Body Removed to Palace.
Saloniki, March 19.—The body of the late King George of Greece was embalmed today and removed from the hospital to the palace on a stretcher borne by his son, Prince Nicholas, and several superior officers of the Greek army. The stretcher was followed by a straggling procession consisting of regular troops in their campaign outfit, officers in brilliant uniforms, clerks, civilians, Cretans, Greeks, Mussulmans and peoples of the various Balkan races in a kaleidoscopic variety of costumes.

Soldiers of the Greek light infantry in their quaint kilts surrounded the humble military stretcher as a guard of honor. The procession on its way to the palace passed the spot where the king was shot down yesterday.

On arrival at the palace, military honors were rendered. The body was placed on a bier in the main chamber and the Greek Metropolitan offered prayer. As the civil and military authorities filed past many of them burst into tears.

A guard of honor consisting of Greek captains and priests, the latter continually chanting prayers, will be stationed around the body until it is removed for burial.

Requiem Celebrated.
Belgrade, Serbia, March 19.—A requiem for the late King George of Greece was celebrated at the cathedral here in the presence of the ministers of the Serbian cabinet and the members of the entire diplomatic corps. King Peter owing to a rheumatic ailment was unable to attend but his majesty was represented by the court marshal.

Aleko Schinas, the assassin of King George, is still held in close confinement. At various periods throughout the night he was forced to undergo an examination but without eliciting facts to show that other persons were implicated in the crime.

Schinas is not a madman but apparently is weakminded. He lived by begging, and three weeks ago came to Saloniki by way of Athens. He stopped for a few days at Voio, Thessaly, where he delivered harangues in which he declared that within a short time he would succeed in establishing equality; that there would be no longer rich or poor and that work which was now accomplished in one hour would be spread out over two.

Athens. He refuses to give any explanation for the crime beyond the fact that two years ago he applied for assistance at the palace and was driven away by an aid de camp.

Known As Anarchist.
London, March 19.—Reports that Alexander Schinas, assassin of the king of Greece was well known in his home country as a disciple of anarchist doctrines, were current here today.

The Greek minister to Great Britain reported today his statement that Schinas was weak minded and addicted to the use of intoxicants. The man had been drinking heavily before his attack on the king, he added. This evening the Greek minister issued a statement in which he says that Schinas on two occasions was discharged from the position as attendant of the school because of alcoholism and weak intellect. He later applied to King George for assistance and his petition, after being referred to the proper quarter was recommended.

Pope Sends Condolences.
Rome, March 19.—The pope has sent through the apostolic delegate to Greece his deep condolences to the royal family in the death of King George. He expresses profound abhorrence at the atrocious crime.

Begin Mourning.
Copenhagen, March 19.—The Danish nation today began a period of eight weeks mourning for the late King George of Greece. The officers and men of the navy will wear mourning crepe for a fortnight. On the day of the funeral mourning salutes will be fired from all Danish warships and fortresses.

The genuineness of the national grief in the assassination of King George is evinced by the mourning aspect of this city. Flags on the buildings and on the vessels in the harbor were half-mast today and many people donned black. There was a constant stream of callers at the royal palaces proffering condolence. All the theaters in the capital were closed tonight.

Addressed Greek Army.
Athens, Greece, March 19.—From the fortress of Janina, which he recently captured from the Turks, King Constantine addressed his first message to the Greek army today. It was as follows:

"The outrage on the sacred person of King George deprives us of our leader at a moment very critical for the Hellenic nation. I am called by providence to succeed my never-to-be-forgotten father on the throne over which he so long shed lustre and honor.

"I bring this news to the knowledge of my army to which I have devoted my whole life and to which unsuccessful and successful wars have indissolubly bound me. I declare to it that marching always at its head I will never cease to concentrate my solicitude on my land and sea forces, whose glorious exploits have brought renown to our fatherland."

Premier Venizelos, on announcing the death of King George to the chamber of deputies today, eloquently eulogized his majesty's services to his country during his long reign and referred in a laudatory terms to his successor King Constantine.

When the premier asked the chamber to acclaim Constantine as the new king the deputies responded with cheers and the people in the galleries joined in the manifestation.

The leaders of the parliamentary opposition afterwards paid tributes to the late king, one deputy describing him as "that national martyr who had fallen at his post, valiantly guarding the interests of the nation."

The chamber of deputies determined to go into mourning for six months and a proposal to erect a national monument in honor of the dead king was voted by acclamation.

BATTLESHIPS LEAVE AUSTRIAN NAVAL STATION
Bombardment of European Quarter at Scutari is Thought Responsible For Sudden Sailing of the Ships.

London, March 19.—A Vienna dispatch says that three battleships, an armored cruiser and two torpedo cruisers left Pola the chief Austrian naval station early this morning steaming in a southerly direction.

It is understood the dispatch adds that the sudden departure was due to the bombardment of the European quarter of Scutari, the searching of an Austrian steamer at San Giovanni di Medua and the threatening of Austrian sailors by Montenegrins.

MAKES OFFICIAL DENIAL.
Cullinan, Sinaloa, March 19.—Official denial that Sinaloa state has revolted against the new national administration was given here today in signed announcement by Governor Rivas.

WEATHER INDICATIONS AND TEMPERATURES.
Washington, March 19.—For Illinois—Rain turning to snow Thursday with a cold wave by night, Friday unsettled, brisk to high north-west winds.

American Group Announces That Deferring to Wilson Policy Group Has Withdrawn

SURPRISE LONDON OFFICIALS

NEW YORK, MARCH 19.—As a result of the statement by President Wilson yesterday that his administration would not request the American bankers to borrow from the "six power" loan to China to continue to seek their share, the three banking houses in the so-called American group tonight announced their entire withdrawal from the negotiations. The announcement followed a conference of the banking interests concerned at the offices of J. P. Morgan & Co. In concluding their statement, which reviews the negotiations begun under the Taft administration, the bankers say:

"As the American group had been ready to serve the administration in the past irrespective of the heavy risks involved, so it was disposed to serve the present administration if requested. But deferring to the policy now declared the group has withdrawn its offer from the Chinese loan negotiations and has so advised the European and Japanese banking groups."

The statement explains that the American group became interested in Chinese loan matters "not primarily for its own profit, but for purposes indicated by President Taft and Secretary Knox. As stated in President Taft's message to congress of December 1909, these purposes in effect, called for the co-operation of the bankers as the indispensable instrumentality which the American government needed to enable it to carry out a practical and real application of the open door policy

"Separates the Money From the Milk"

The Simmons Self-Balancing Cream Separator is the latest on the market. It is the most simply constructed machine made, having fewer parts. It is the easiest to clean. Having a self-balancing bowl, it is the easiest to run; having the discs pointed downward, it requires no attention; having the discs interchangeable; it requires no care in replacing them. It is self-oiling and is as nearly mechanically perfect as a machine can be made.

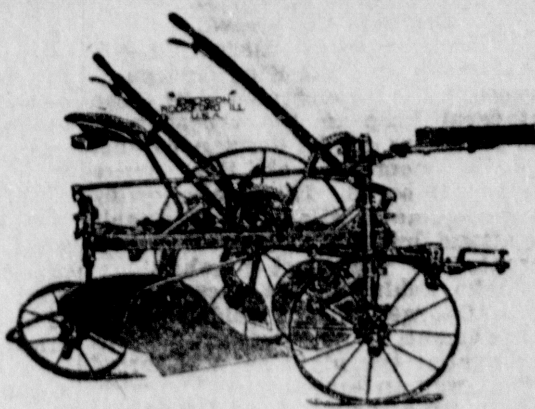

The bowl of the Simmons Separator is self-balancing—hence its name. Directly you turn the handle of the Simmons Self-Balancing Cream Separator, the bowl at once finds its own balance in revolving. Now, this matter of bowl balance is highly important. It eliminates friction and wear—eliminates repair bills and insures clean skimming. Remember that you can't get a self-balancing bowl unless you buy the Simmons Self-Balancing Cream Separator.

NEW MILLINERY, INCLUDING THE FAMOUS NEW YORK PHIPPS HATS, ARRIVING DAILY AT HERMAN'S.

FEED LOT NOW CLOSED.
The property on North Sandy street which for a number of years has been used as a city feed lot has been closed for that purpose by the owner, Mr. Konrad. For a number of years the city paid \$150 annual rental for this lot to be used by the public as a feed and hitch lot, but this year the commissioners determined that the expense was not justified by the results and so made no appropriation for it. Mr. Konrad may build on the property this year. When the feed lot was opened several years ago it was the expectation that it would prove an attractive place for farmers who had to tie their horses for a short time and that many of the express or delivery wagons would make headquarters there. It was also planned to have auction sales and affairs of that kind which had been conducted on the square taken there. However, these plans did not carry well and during last year or two few farmers used the lot and as it was not kept up in good shape and refuse collected from the square was piled there, the general appearance was not attractive.

DATE NOT DEFINITELY FIXED.
Although Manager Hunt of the Grand has sent four messages to New York on the subject to the managers of Madame Schumann Heink, he is as yet not able to announce the date of the coming of the great singer. The letter stating that he could secure an engagement set forth that the date would be some time during the week of March 24, but no further information has been forthcoming. Nevertheless Mr. Hunt has gone ahead making the arrangements for the concert and while he made no announcement of the tickets being on sale the demand has been unprecedented. Woman's college students have taken the entire balcony and heavy crowds have been made on the parquet and dress circle but there are still a lot of seats.

Don't fail to see the new models of Haynes and White pleasure cars and trucks at the Springfield show this week.

SUIT FOR DIVORCE.
Mrs. Olive Reeve, by her attorney, P. P. Thompson, has filed a suit for divorce from her husband, Robert Watson Reeve, whom she charges with cruelty. They were married April 10, 1902. The petitioner was granted an injunction restraining the defendant from disposing of some farm land that he owns and \$2,000 in notes or securities. Mrs. Reeve asks for the custody of two children of a former wife of Mr. Reeve, claiming that he is not a proper person to care for them.

HEAD OF PARIS POLICE DEPARTMENT RESIGNS OFFICE

One of the Best Known Chiefs of the World Gives Up Active Service After Holding Position For Twenty Years.

Paris, March 19.—Louis Lepine head of the Paris police for twenty years, resigned office today. He has been often called "the most famous chief of police in the world," and has figured in hundreds of celebrated cases. His name has been made almost a household word through its use by novelists and dramatists. Lepine is 67 years old, a veteran of the Franco-German war and a former governor of Algeria.

NEW DIRIGIBLE DESTROYED.

German Military Balloon of Zeppelin Type Breaks In Two Attempting to Land During a Storm.
Karlsruhe, Germany, March 19.—Another new German military dirigible of the rigid Zeppelin type was destroyed near here today after a 24 hours flight from the village of Oos. It was launched only a few days ago. The dirigible broke in two while landing during a storm on the aviation ground.

WILL CONFER WITH CONGRESS MEMBERS

(Continued from Page One.)

In close touch with President Wilson up to the time the bills are completed for the house caucus.

Favor Single Bill.
The senate committee will begin consideration of the complete revision but as soon as it is passed upon by the Democratic caucus in the house and without waiting for the house to act upon it. The sentiment in both houses has developed strongly in favor of a single tariff bill, embracing the whole revision. Instead of a separate bill for each schedule, should the house adopt this plan, senate leaders declare the tariff bill will be passed quickly in the senate.

Representative Payne of New York, ranking Republican of the ways and means committee said today that while there would be a minority report on the tariff bill by the Republican members of the committee there would be no time to present a Republican tariff measure, as the Republicans will not be called into the committee to vote on the Democratic bill until that measure is ready to be reported to the house. The question as to when the tariff law shall go into effect has not been taken up, but the opinion was expressed tonight that it would take effect upon approval or the following day. Clothiers among others have asked that the operation of the measure be so that certain portions of it would not be enforced until December so as not to effect outstanding orders.

Sends Telegram to Lincoln.
President Wilson tonight sent the following telegram in connection with the celebration at Lincoln, Neb., of the birthday of William Jennings Bryan, the secretary of state:

"Honorable Edgar Howard, 'Lincoln, Neb.
"Please accept my sincere good wishes on the occasion of the celebration of Mr. Bryan's birthday by the Lincoln-Bryan club. I cannot tell you what a comfort it is to me to know that I am to have the aid and counsel of your distinguished fellow townsman. It is a source of genuine pleasure as well as great advantage to me to be associated with him.

(Signed) "Woodrow Wilson."
Considering Recognition.

President Wilson is giving serious consideration to the question of formal recognition of the Chinese republic. His statement yesterday on the loan question contained no specific reference to the matter of recognition, although many officials here were of the opinion that China could find in it comfort and hope of early acknowledgment of her new government. The president apparently has not settled definitely the question of recognition and it was believed tonight that several conferences on the subject and many meetings of the cabinet will be necessary before the administration's attitude is defined. For many months past the United States has dealt with the Chinese republic only as a de facto government and formal recognition is largely a matter of sentiment. There has been an American minister to China and they have had practically all the power they would have possessed if recognition had been given. In the recent conferences preceding the president's statement regarding the pending loans the Chinese talked with both the president and Secretary Bryan, and it is known that Chinese has been most anxious that the United States, the greatest republic, recognize the latest addition to republican ranks. The president's advisers are considering this step for several reasons. China, they believe would be in a better position to carry on her loan negotiations if she had the official approval of her new government from a great power and her feeling of friendship for the United States would be increased with commercial advantages resultant therefrom.

CRUISER CALIFORNIA EQUIPPED FOR SHORE DUTY.

Cruiser Sails From San Francisco For American Waters—Will be joined by the Maryland at San Diego.

San Francisco, March 19.—The cruiser California sailed southward late today bound for Mexican waters. She carried 400,000 rounds of rifle ammunition and complete equipment for shore duty, including camping outfits.

At San Diego, the California will await the arrival of the Maryland, now coaling at California City, and the two will proceed to Guaymas, where the flag of the admiral of the Pacific fleet will be transferred from the Colorado to the California. The supply ship Glacier has sailed for Mexican ports with stores for the cruisers Colorado and South Dakota.

ENLISTS IN WELFARE WORK.

Mrs. Woodrow Wilson Joins Ranks of Civic Workers in National Civic Federation.

Washington, March 19.—Mrs. Woodrow Wilson, wife of the president, enlisted in the work of the women's welfare department of the national civic federation. She joined the civic workers after listening to a lecture before the organization by the superintendent of the District of Columbia work house.

JAPAN MAY WITHDRAW FROM 1915 EXPOSITION

Vancouver, B. C., March 19.—A special cable to the World from Tokyo, Japan, today says:

"It is learned through official sources that, in the event bills now before the California legislature and hostile to Japanese pass, Japan will withdraw her support from the Pacific-Panama exposition, refusing to exhibit, and prohibiting Japanese citizens from having any connection whatever with the fair.

**SIGMA PI WINS
IN JOINT DEBATE**
**ANNUAL CONTEST AT ILLINOIS
COLLEGE ATTRACTS MANY.**

Guarantee of Bank Deposits Question Discussed and Decision Was In Favor of Negative Side.

The annual joint debate between Sigma Phi and Phi Alpha literary societies of Illinois College, held Wednesday evening at 8:30 o'clock in the college gymnasium, resulted in an unanimous decision for Sigma Phi and the negative. The question was "Resolved that bank deposits should be guaranteed by the government of the state, constitutionally waived." The Phi Alpha debaters were Warren Hall, Roscoe Linder and Ray Bracewell. Sigma Phi was represented by Edward Bullard, Ellis Spray and Clifford Dixon. The debaters went to the question with a directness and energy which showed that they had the question in hand. The Phi emphasized the fairness of a system of bank guarantees, both to depositors and bankers, and the confidence and stimulation of trade which would result.

The Sigma Phi negative team said that the state guarantee of bank deposits is unjust in principle, a failure in practice, illogical in theory and wholly unnecessary to reform the present evils in American banking.

President Rammelkamp, in introducing the debaters spoke with much gratification of the resumption of the joint debates, saying that Illinois college with out the annual debate is almost like Chicago would be without a lake front. He expressed his thanks to the judges, all of whom had come from a distance. The judges were: Hon. E. A. Doolittle of Carrollton, Hon. T. E. Lyon of Springfield and Prof. George R. Throop, of Washington University, St. Louis. The invocation was offered by Dr. F. S. Hayden.

The affirmative argument. It is only fair that one who interests his hard-earned cash to the care of a bank should be insured against loss by the failure of that bank. Nor would the guarantee of bank deposits by the state government be unfair to the banker who would secure added confidence of the public through the certainty that the money of all depositors would be absolutely safe. Whenever a bank fails the depositors would be remembered by a one per cent assessment on the deposits in all banks. The bank as a semi-public institution should be held as responsible to the public it serves as the post office department, the fire insurance company or the express company. The postal savings banks are inadequate to properly serve the public. With out present system of credit and checking they are often very inconvenient as well.

State guarantee of bank deposits would mitigate the effects of panics which are caused many times by runs on banks arising from a lack of confidence. Anything tending to promote confidence would increase bank business, discourage hoarding and benefit the banker as well as the depositor. When a bank fails confidence in banks as a whole is shaken. A guarantee system reliable banks would not have to suffer from the discredit entailed by the failure of the less reliable ones. Such a system again would place the responsibility for inspection and the weeding out of unreliable banks where it belongs, on the skilled and expert bankers who know the true condition of a bank much better than a layman can.

The negative said that state guarantee of bank deposit is unsound in principle. They pointed out its failure in Michigan and Vermont in the '30's and the many signs of failure in the recent experiment in Oklahoma. Soon after the law was passed in Oklahoma permitting banks to voluntarily avail themselves of the state guarantee system, more than a hundred banks, private and national took out state charters. Last year, ninety-six guaranteed banks withdrew from state supervision. Of the two hundred institutions availing themselves of the system, more than two thirds are not on a dividend paying basis. Many banking evils came in with this system. Banks sprang up where none were needed, heavily taxed for the maintenance of the insurance fund many banks had to resort to questionable methods of investments in order to make any money.

Such a guarantee system would remove incentive for the banker to build up a reputation for fair dealing and reliability. The banker of tried worth would have to compete on equal terms with every young wild-cat bank, since all deposits would be perfectly safe anyhow. The experience of the bank at Colgate, Oklahoma, which was ordered to suspend when thoroughly solvent by a tricky comptroller who wished to make a trial of the new law, shows that banks under this system would often be placed at the mercy of unscrupulous politicians. There is no need for such a radical change. Depositors are certainly very safe as things are. The amount of deposits lost their depositors in the panic of 1907 was only eighteen thousandths of one per cent. The true remedy for financial evils is unlimited liability of those owning stock in banks, and a system of elastic currency enabling banks to liquidate their assets quickly when the need is greatest.

Rebuttal speeches: In their rebuttal speeches the affirmative brought out that past failures of the system were not fair tests as conditions were often highly adverse, that the guarantee of bank deposits is not a socialistic venture as some have been eliminated, that the best way to eliminate faults in our banking system would be the creation of a united body of bankers forced by self interest to keep a close watch on all signs of

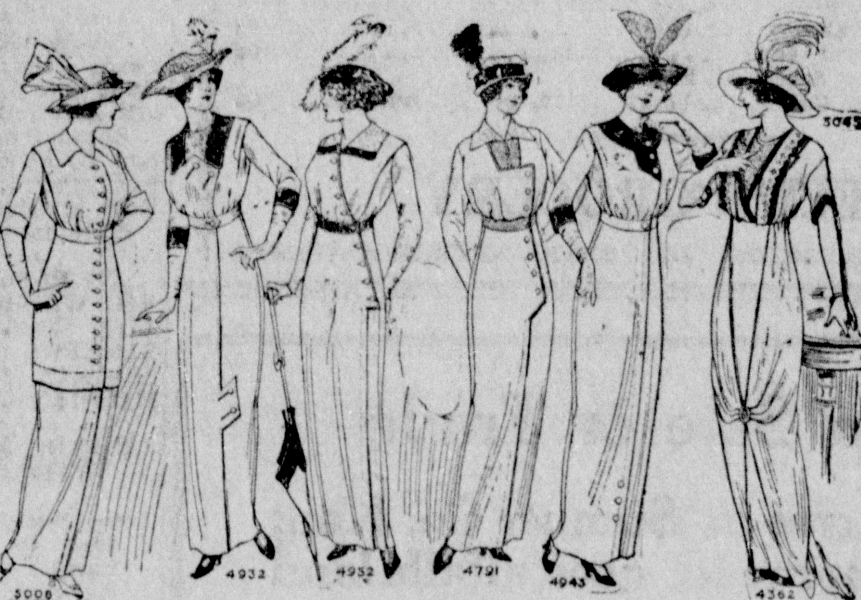

THE ART OF CORRECT DRESS

Solving the Pattern Problem.

Article No. 2 in a series of timely talks on "The Art of Correct Dress."

Choosing the style by which to make a new dress has probably caused the women of America more worry and headaches than any other one thing in connection with her wardrobe. While each season brings out certain tendencies which are to be adopted by the well dressed woman, there are so many modifications by the different modistes, choosing is made most difficult. And then the question arises, "Can my dress be made to look like the picture?"

If you use Pictorial Review Patterns our answer is "Yes, your dress will be made to look just like the picture." There is a cutting guide accompanying each pattern which produces absolute accuracy in design.

The worst jolt the combined pattern concerns ever sustained was when the Pictorial Review company began making patterns. No other pattern had ever qualified with the American women. Pictorial Patterns did.

If you are not already acquainted with the smartness of Pictorial Review styles, a visit to our pattern department will be a marvelous revelation to you

CUMMINS READY FOR EARLY G. O. P. CONFERENCE

Iowa Senator Revives Interest in Plan to Reorganize Republican Party.

A dispatch from Washington says:

Senator Cummins of Iowa revived interest yesterday in the proposed call for a national Republican conference looking to the rehabilitation of the Republican party. Senator Cummins has just returned to Washington from a visit to his home in Iowa. He met many local politicians in Iowa and in Chicago, and returned to Washington full of enthusiasm over the plan for reorganizing and upholding the Republican party organization.

Senator Cummins talked with several of his party colleagues, but no definite conclusion was reached. The senator believes the call should not be postponed very long. Originally it was planned to have the conference not earlier than next fall, but there was some talk today of convening it in the late spring or early summer. Some of the Republican senators, notably Mr. Penrose of Pennsylvania, expressed doubt today whether there was any power in the Republican national committee to call such a conference. But it was said that if this view were confirmed it would not prevent the conference, for leading Republicans could join in the call, which probably would be just as effective, proceeding from them, as it would be coming from an official body like the national committee.

Undoubtedly Republican leaders in congress have been stirred to activity in this matter by Colonel Roosevelt's recent movement. The significant fact has not been overlooked here that the leader of the Bull Moose movement has emerged from his temporary obscurity just at a time when complaints are beginning to be heard against the Democracy in power on account of the patronage and the pending tariff legislation.

The Republicans are unwilling that Colonel Roosevelt should assume the leadership of the opposition to the Democratic party. They do not intend that he shall monopolize the negative political forces that would be at work.

Colonel Roosevelt has shown many evidences of political activity. His advertising campaign is getting under way. His Progressive followers in the house of representatives, at his discretion, are insisting that they be recognized as a separate political entity. The colonel roused interest in his waning political organization by his appearance at Philadelphia a few evenings ago, and has plans for a state wide conference in New York at an early date and for an excursion into Michigan to take personal part in a fight against judges of the supreme court who are up for re-election.

All of this has a significance to the Republican leaders. It means that Colonel Roosevelt is out after the Progressive nomination for president in 1916 and is already at work building up his party following.

Republican leaders believe the time has come for them to begin the work of organization, and it is the opinion here that it will not be long delayed.

TO THE PEOPLE OF MORGAN CO.

I wish to thank my patrons for the many favors they have shown me in the past 28 years I have been in business in Jacksonville. I have always tried my best to sell the best goods I could get. I feel from the large business that I have built up with the help of my customers that my service has been appreciated. I feel positive that almost all my customers are satisfied in their dealings with me, thereby I have made a success of my business. I have now sold my business to Messrs. Mackness & Berryman, who are well known, and who I feel confident will do all in their power to please you, as both were well posted on goods as suitable for this territory. I now ask all to call at the old stand and see the improvements which will be made and examine the large line of the best goods on the market. I will make my headquarters at the old stand in the future and will be glad to see you.

Yours truly,

Equipment Provision Says Nothing About One Man Cars—Terms for Use of Tracks By Any Interurban Company Based On Springfield Contract.

The street railway franchise which the city council has under consideration has been the subject of considerable discussion among citizens. The sections most frequently talked about and concerning which questions are asked are those relating to the equipment to be provided, the use which can be made by the city of the company's poles and the rights of possible interurban companies. Sections relating to these subjects are printed herewith. In the discussion of the franchise held in the mayor's office a week since Commissioner Brennan insisted that the city should have the right to attach iron arms to the company poles for carrying light wires of the city, within certain districts. Mr. Chubbuck however, maintained that this would be objectionable to the company except for some temporary arrangement. In the equipment section no mention is made of one man cars.

Section 3.—The grantee may and is hereby expressly granted the right, power and authority to erect and maintain, on the said streets and public highways, named section 1 hereof, necessary and suitable poles of iron telescope or concrete type except on East State from Illinois avenue to Johnson street; on Woodlawn Place from West College avenue to Mound avenue; on Mound avenue from Woodlawn Place to City Place; on West College and Webster avenue to Woodlawn Place; on North Main street from Independence avenue to Walnut street; and on South Main street from Superior avenue to the city limits of Michigan avenue, where the wooden poles may be maintained as at present.

When new poles shall be erected or replaced on any street, location thereof shall first be approved by the proper city officer or official; and they shall be of iron telescope or concrete type, and grantee may and hereby is expressly authorized to string and maintain on all said poles span wires, feed, trolley and other wires for the conveyance of the electricity properly to operate the street railway system; the overhead wires of said company to be suspended not less than eighteen (18) feet above the rails of said railway. Poles now located shall be painted within one year from acceptance of this ordinance and new poles shall be painted within a reasonable time after being placed in position. The central line, or the space between the rails of the tracks of said railway, shall coincide as nearly as practicable with the central line of the street on which the same is located, except in streets around the public square. And the space between the rails shall be kept in as good condition under the direction of the city engineer or other proper officer of said city; as the balance of the street shall be kept; provided, that the location of tracks now laid shall be deemed to meet the requirements hereof.

The grantee agrees to remove its present track on Illinois avenue, from East State street north to the terminus of such track.

Section 5.—The grantee hereby agrees to equip its street railway system with the most approved finish and design of cars, and maintain upon its road good, and convenient, cars to accommodate public travel, and to keep the same in good and safe order and condition, and keep the tracks and roadbed in good order and condition so far as to afford safe and convenient travel thereon. The cars to be provided with the best approved safety appliances for protecting lives of persons and passengers upon said railway and of the public traveling on and across the streets over which said street railway may operate, and all cars shall be run at all times and places at a reasonable rate of speed, under the particular circumstances and in no event shall any street car be run or operated on a schedule greater than fifteen miles per hour, within the limits of the said city, and the cars shall be properly heated, lighted and cleaned and shall run in each direction as often as once in every fifteen minutes, as near as practicable, leaving the public square not later than 6:15 in the morning and as late as 10:45 in the evening, except on Sunday's when it shall not be required to operate from said square until 6:45 a. m.

And provided further that grantee agrees to operate a special car from the intersection of City Place on Mound avenue East on West State street and East State street to the Chicago & Alton station, to accommodate traffic for the six o'clock morning Alton train for St. Louis, as such train is now run. Upon which special car grantee is hereby authorized, anything in this ordinance to the contrary notwithstanding, to charge a ten cent (10c) fare of each passenger. Provided however that the grantee shall not be required to operate such special service at a loss.

Section 6.—Said city hereby reserves the right at any time hereafter to authorize any electric interurban railway company operating in said city from a point ten miles distance from the public square therein, to operate its cars over said public highway upon the tracks of the grantee then laid thereon, within the corporate limits of said city, upon condition and provided always such electric interurban railway company so authorized shall enter into a contract with the grantee for the use of said tracks and the poles, wires and appliances, of grantee, for operating and lighting, but not for heating, the cars of such electric interurban railway company, upon payment therefor, by such electric interurban railway company to grantee of twenty cents (20c) per mile for each and every

car of whatsoever description operated by such electric interurban railway company over said tracks, plus any local fares collected by such electric interurban railway company. Such contract further shall provide for the purpose of compensation hereunder the minimum movement of each and every car of such electric interurban railway company over said tracks shall be considered not less than one mile; that the flanges and tread of the wheels of the cars of such electric interurban railway company shall not exceed seven-eighths of an inch in depth and three inches in width, respectively; that the weight of such cars, including motors, shall not exceed forty tons, double truck, and twenty tons, single truck cars; that operation of cars of such electric interurban railway company over said tracks shall be subject to the rules and regulations of grantee.

Such contract shall further contain the usual terms and conditions for the protection of grantee and grantee's tracks, stationary appliances, equipment and business and in general terms, form and substance shall conform except as herein otherwise provided as nearly as practicable to the contract under which the Illinois Central Traction company now operates its cars over the tracks of the Springfield Consolidated Railway company in Springfield, Ill. It is understood and further provided that cars of such electric interurban railway company shall have the right to maintain the same schedule while on grantee's track as cars of grantee so as to enable operation by such electric interurban railway company, over grantee's tracks as expeditions as that of grantee, to the end that the service of such electric interurban railway company, shall be as efficient as consistent with proper operation of grantee's railway.

Section 11.—The city of Jacksonville shall have the right without payment of any compensation therefor, during the life of this grant, but at its expense and risk, to use the poles of the grantee, in such manner as not to interfere with grantee's use thereof, to carry the signal, telephone, and telegraph wires then the property of the city for its own use. The wires of the said city for such purpose shall be placed and maintained on the poles of the grantee on that side of each street or public highway where poles are located on both sides thereof, designated by the proper city officials or board, without cost or expense to the grantee; but the grantee shall repair and maintain its poles at its own expense, and the city shall indemnify and save harmless the grantee against and from all damage, judgments, costs or expense which the grantee may suffer by reason any negligence of the said city in installing, maintaining or using its said wires and lamps upon said poles.

Spring is due here about 11:10 Thursday night, but what her fancy will be, how will she behave, is still a problem.

The Turks captured Adrianople nearly a century before they took Constantinople. They have now lost Adrianople and it may not be a century before they drop Constantinople.

March is the month of pneumonia, according to health authorities. Another sin laid at the door of the windy month, but this year the record is said to be unusually favorable.

At a ministers' meeting in Philadelphia a Presbyterian preacher suggested that Sunday baseball might be approved if opened with prayer. That might well be added to the duties of the umpire.

Chief Justice Harry Olsen, of the proposed new "moral" court in Chicago, promises publicity for owners of vicious resorts and the men who patronize them, and claims it will be an important factor for good.

The Arkansas legislature has passed a bill disbanding its National Guard as too expensive. Arkansians do not agree with the German emperor as to the worth of a great army.

Iowa has a bill fixing the minimum wages of teachers according to grades of their certificates, and providing fines for school officials who do not pay the price fixed. This may aid in improving the standing of rural schools.

The rules adopted by the house of representatives in this state, it is claimed, were designed to prevent the throttling of bills in committee. Actual work under these rules will probably show that the power of the speaker and chairman of committees is not greatly lessened.

The general Federation of Women's clubs have started a nation wide campaign to secure the retention of Miss Julia C. Lathrop, of Chicago, as chief of the children's bureau in Washington. Her appointment was secured through the clubs during President Taft's administration.

The old saying regarding a "minister's son" seems to have been disproven by the record of three men, at least, presidents of the United States. Mr. Arthur was the son of the Rev. William Arthur, a Baptist minister; Mr. Cleveland's father was the Rev. Richard F. Cleveland, a Presbyterian minister; while the Rev. Joseph R. Wilson was a Presbyterian minister.

The recovery of the Niagara, Commodore Perry's second flagship at the battle of Lake Erie, from the bottom of the lake, where the hulk has rested for nearly 100 years, assures the country of one more interesting relic. A good deal of doubt has been expressed as to the condition in which the timbers would be found, but they seem to have been remarkably well preserved.

Mexican names are a puzzle to the average man, so the following rule for their pronunciation is given: Huerta, pronounced Wherta; Diaz, syllable like English "where"; first pronounced Deeahs; accent on first syllable. Coahuila, pronounced Co-ah-wee-la; accent on the "wee." Reyes, pronounced Ray-yes; accent on Ray. Vasquez Gomez, pronounced Vahskess Gomez; accent on first syllable. Zapata, pronounced Sahpata; accent on "pah."

A minimum wage bill is pending in the legislature of New York. It does not stipulate what the minimum wage shall be, but instead provides for a state board of five men empowered to name local boards to investigate local conditions and recommend a minimum wage for any

locality or industry. Provisions are made in the bill for pensioning those who through physical defects are not worth employing at the full minimum wage rates.

Anyone can save a penny a day. The old time horse shoe problem has been resurrected by some one as a "get rich quick" scheme. Save a penny the first day of the month and double the result each day of the month of thirty-one days—if you have the pennies. Try this, and when you count up at the end of the month you will find that you have laid by the snug little nest egg of \$21,471,836.47. We do not vouch for the arithmetical part of it, but you would sure have a pile of pennies.

The dead-lock in the New Hampshire legislature resulted in the election of a Democrat, notwithstanding the fact that at the election last November Wilson secured only 39.59 percent of the total vote cast. The vote in the state of the Republican and third parties combined was 50,721, or 6,740 more than half the total. In the legislature the Democrats were in a minority in both branches by 203 to 222, or 19 on joint ballot. Yet through Republican division a Democratic senator is the outcome. Another strong argument in favor of the amendment providing for the direct election of senators.

The people are becoming accustomed to the use of the parcels post, as the increase in the record of parcels handled show. In the whole United States about 50,000,000 parcels were sent in February, against about 40,000,000 in January. In Chicago 5,167,540 parcels were handled in February, in New York 4,102,010, in Boston 1,326,228, in Cleveland 1,226,025 and in St. Louis 1,069,305. This is a remarkable showing. Like the postal savings banks, the parcel post was established on conservative lines, after its success had been demonstrated in other countries. Congress should not be indifferent, however, to the need of amending the parcel post law; an amendment already needed is one that will permit the deposit of parcels in boxes or at numerous sub-stations for collection in cities.

WHAT THE RAILWAYS EARNED.

Interesting sidelights on railway earnings during 1912 are shown by a recent report of the bureau of Railway Economics.

The report shows that the total receipts for the railways of the east during 1912 were \$1,511 per mile higher than in 1911, while those of the south increased \$492. Despite this big gain, however, the report avers that the gain in operating income on the eastern railways was only \$240 per mile, while those of the south suffered a loss of \$109. Operating income is the amount which, after all expenses have been paid, remains for rentals, interest on bonds, appropriations for betterments, improvements, new construction and for dividends.

That the funds available for developing and extending the railways have not kept pace with the growth in traffic or in the increased expense of operation is shown by the following percentages:

For the railways of the east the total operating revenues increased 7.2 per cent, operating expenses 8.3 per cent and taxes 8 per cent, leaving an increase in operating income of 4.3 per cent. For the railways of the south total operating revenues increased 4.9 per cent, operating expenses 8.4 per cent and taxes 2.8 per cent, leaving a decrease in operating income of 4 per cent.

The unusual traffic of the west enabled the railways of that section to obtain an increase of 8.4 per cent in operating income, which just about balances the losses sustained during 1911.

"FALLEN MEN." Wheeler, of the Quincy Journal, seems a little concerned by recent talk brought out by O'Hara's committee, and sermons preached thereon. He addresses "Bro. Smith" editorially as follows:

Does a small wage make a man unchaste, Bro. Smith? Does it? Preach a sermon on this subject next Sunday, Bro. Smith.

Have you ever heard of a "ruined man," Bro. Smith? We mean "ruined" through lack of virtue. Preach about that next Sunday, Bro. Smith, please.

We hear a whole lot about "fallen women," Bro. Smith. And we talk a whole lot about them. But, have you ever heard of a fallen man—in the sense that we speak of a "fallen woman?" Have you, Bro. Smith? Have you ever preached about him? Please do it next Sunday, won't you?

You talk about "the citadel that defends a woman's virtue." What about "tearing down the citadel that defends a man's virtue?" A girl can't "fall" all by herself, can she, Bro. Smith?

If you are going to discuss these sex question, Bro. Smith, then for heaven's sake get out of the old beaten path and get down to bed rock. Let's quit, just once, talking at the girls and talk once about the boys. Let the "fallen girls" alone for once and give us a sermon on "fallen boys."

The girls are all right, Bro. Smith, if the men will let them alone. Preach at the men a while, Bro. Smith, and give the girls a rest.

POPE'S NAME DAY. Rome, March 19.—St. Joseph's day, the name day of Pope Pius X., was kept a holiday at the Vatican today, everybody being desirous of congratulating the pontiff on his recovery from his recent illness. Thousands of letters and telegrams from all parts of the world were received. His holiness received the cardinals in private audience, but all of the public ceremonies that have been associated with the observance in the past were dispensed with in compliance with the strict orders of the pope's physicians.

NEWARK M. E. CONFERENCE.

Newark, N. J., March 19.—The annual meeting of the Newark conference of the Methodist Episcopal church began its sessions in the Halsey Street church in this city today, with Bishop Luther B. Wilson of New York presiding. The initial session was devoted to a communion service, followed by roll call and organization. The regular work of the conference was taken up this afternoon. The ministerial appointments will be announced Monday.

NO OLD MEN IN WILSON CABINET.

Washington, March 19.—Today's birthday anniversary of Secretary of State Bryan has served to call public attention to the fact that all of the members of the Wilson cabinet are comparatively young men. Their average age is fifty years and six months, whereas the ages of the members of the Taft cabinet averaged almost fifty-nine years. The oldest member of President Wilson's official family is Secretary of Commerce Redfield, who will be 55 years old next June. Mr. Bryan, at 53, is the next in seniority. Attorney General McReynolds, Secretary of the Navy Daniels and Secretary of Labor Wilson have just turned 50, while Secretary of the Treasury McAdoo, Secretary of War Garrison, Secretary of the Interior Lane, Secretary of Agriculture Houston and Postmaster General Burleson have not quite reached the half century mark. In marked contrast were the ages of the Taft cabinet officials. Secretary of Agriculture Wilson was 73 and Secretary of the Treasury MacVeagh 72. Postmaster General Hitchcock and Secretary of War Stimson were the only members under fifty years of age.

PAID HONOR TO MEMORY OF GREAT LIVINGSTONE

One Hundredth Anniversary of Birth of Explorer Observed.

London, March 19.—The one hundredth anniversary of the birth of Dr. David Livingstone, the famous missionary and explorer, was celebrated today in many parts of the United Kingdom. In London, Glasgow, Edinburgh and other cities largely attended meetings were held in observance of the centennial.

London's contribution to the general observance of the anniversary included several notable features. In the afternoon a meeting was held at the rooms of the Royal Geographical society and a free church thanksgiving service took place in New Wesleyan hall, Westminster. These were followed by a great public demonstration in the Royal Albert hall, at which the archbishop of Canterbury presided. Among the speakers were Lord Balfour of Burleigh, Sir Harry Johnston, the African explorer; Dr. Wardlaw Thompson, secretary of the London Missionary society, and the venerable John Kirk, who was an intimate friend and companion of Dr. Livingstone.

In the popular mind the name of Dr. Livingstone is associated chiefly with the exploration of the "Dark Continent." But greater and more fruitful than this work of exploration was his work as a Christian missionary. As an explorer he tracked deserts and described the wealth of the country, in its plants, fruits and minerals. As a missionary he strove for freedom and security among the natives, acquainted them with the ways of civilization, and by striking a blow at the slave trade commenced a new era for the natives and for the traders who wished to carry on legitimate trade.

Livingstone was born March 19, 1813, on the banks of the Clyde, at Blantyre, in Lanarkshire, Scotland. His parents were splendid representatives of all that is best among the working people of Scotland. As a boy the future missionary worked in a cotton factory and his life from the beginning to the end was one of pluck and endurance.

He saved his money and put it into books, which he studied diligently until he was able to enter the University of Glasgow. His purpose was to study medicine, but after a short time at the university he turned his attention to the subject of theology. His knowledge of both medicine and theology he turned to good account in his missionary work of later years.

In 1840 he went to Africa under appointment of the London Missionary society. The first stage of his work was that of teacher and preacher and founder of mission stations. But he soon became dissatisfied with the prevailing methods and his characteristic impulse urged him to go further, gaining the confidence of the natives by his medical service during a 700 mile trip into the interior.

The second stage of Livingstone's missionary work was conceived on broad lines. Colonization and trade were combined with mission teaching. Christian civilization became his object. With the aid of government support he explored large sections of the Zambesi district and added much to the geographical knowledge of that land. In 1864 he returned to England and spent one year.

He set out for Africa again in 1865. In this last stage of his career he sought to solve the problems of civilization, the suppression of the slave trade and the opening of central Africa. The knowledge of the resources of this land, hitherto unknown to the world, is largely due to Livingstone. It was in this period of his work that he gave most attention to geographical exploration and sought the source of the Nile. Previously he had crossed the continent from the Zambesi to Congo, and

again from Loando to Quilimane, and had made the discovery of Lake Nyassa.

For several years no word came from the explorer and it was generally supposed that he had perished in the African wilds. The story of how he was sought and found by Henry M. Stanley, the American journalist is one of the most thrilling in all his history. After Stanley had found him the two traveled together for a time, but Livingstone persistently refused to return with Stanley to civilization.

In poor health and becoming weaker with each day of travel, Livingstone was one day found by an attendant kneeling lifeless by his couch. The place of his death was on the shore of Lake Bangweulu, and the date May 1, 1873.

The body of the great missionary and explorer was embalmed and brought home and on April 14, 1874, the remains were interred with impressive ceremonies in Westminster Abbey.

In connection with the centenary celebration the London Missionary society raised a \$50,000 fund to found a memorial station in Africa, while the directors of Charing Cross hospital, where Livingstone studied medicine, have started a similar fund for the building of a new wing to the hospital as a memorial to Dr. Livingstone.

ILLINOIS COLLEGE STUDENT CAMPAIGN

Will Be Led by Prof. Carl E. Robinson Who Will Again Be Field Agent—Activities of Student.

At least fifty for next year's freshman class is the standard set by the authorities and students of Illinois college. As announced by President Rammelkamp Wednesday morning in student meeting, Prof. Carl E. Robinson has again been secured by the trustees as field agent for the summer. Mr. Robinson who was for two years Principal of Whipple Academy is at present in the law school of the University of Chicago. He will take charge of the work for Illinois College at the close of his school year in Chicago.

Prospects are bright for much effective activity on the part of the students themselves. A general discussion of the situation was engaged in at the student meeting and various students spoke of the prospects for new students next year from their home towns. The committee appointed recently by President Widenham of the student association to help in this campaign the spirit of enthusiasm generally present among the students, and the promised activity on the part of the local alumni all presage an excellent freshman class for Illinois college next year.

WITH THE FIGHTERS.

Willie Lewis has been signed to meet Marcel Moreau, the French boxer, at Paris, March 19.

Joe Rivers has arrived in New York and has started training for his second bout with Leach Cross.

Jack Carrig, a former Boston lightweight, but who lived in the west for several years, died in Texas the other day.

The father of Jack Daly, the Baltimore pugilist, was one of the victims of the recent dynamite explosion at Baltimore.

Fred Carsey, the old time Chicago scrapper, has the "comeback" fever and will endeavor to get into condition for another whirl in the boxing game.

KNIGHTS TEMPLAR AT TAMPA.

Tampa, Fla., March 19.—The Knights Templar of Florida met in Tampa today for the annual convocation of the grand commandery. In their honor the business section of the city is elaborately decorated with the colors and emblems of Masonry. The opening session was held in the Masonic building this morning and was devoted to the annual reports and the election and installation of officers. The proceedings will conclude tomorrow.

HERE'S TO THE U. R. M.

The Flour of all flour—the Flour that's made baking a pleasure and success. There was a young maid who was learning to bake. But the flour she used proved always a fake. She became quite discouraged, and finally then she decided to use the U. R. M. The test resulted in very fine bread. And she danced with glee as she tossed her head. It's a cinch in the future will I ever again use any other brand but U. R. M. \$1.25 for 49-pound sack, and every sack guaranteed. For sale at your grocer's. CHATS WITH GREAT
MEN OF THE CIVIL WAR

By Mrs. Gen. Pickett.

Copyright, 1913, by The Press Publishing Co.
(The New York Evening World.)

GEN. J. E. B. STUART

General Stuart came into Richmond on business with the war department and dined at the home of Colonel Shields when I was a guest there. He had just received a letter from an old comrade in the United States army, now fighting against the south. He read it with deep interest and then handed it to Colonel Shields, who read and gave it back without a word of comment.

"Ah, Colonel," said General Stuart, "you never slept under the same blanket, fought the same Indians, drank from the same canteen and seasoned your fresh meat with the same old bacon rind that you carried around in your vest pocket or you would be as glad to hear from the old comrades on the other side as I am, wouldn't he Cooper?" appealing to General Cooper, who was visiting at the Shield's home and who seemed no more responsive to old comradeship in new foes than did Colonel Shields.

General Stuart was called the "Red Fox" of the confederacy because of the blond glory of his coloring and the swiftness of his movements, as well as his willingness in evading pursuit. He was said to be one of the handsomest men in the south. And perhaps it was true. But I was at that time too much absorbed in contemplation of the, to me, handsomest man in the whole world to have discriminating eyes for the beauty of any one else.

Among those of our officers also noted for personal attractions, and one who was thought to resemble General Stuart in appearance, was General Longstreet. The "Red Fox" told me that one of his most ardent admirers, meeting General Longstreet on one occasion, said to him:

"General Stuart, you know, somebody told me of mistaking you for General Longstreet, the likeness was so great. But I don't see how he could, for Longstreet is not half as handsome as you are."

Longstreet gravely replied: "Yes strange as it may seem, I am sometimes taken for Longstreet." "Now," said Stuart, "wasn't that just like old Peter, with his quiet humor?"

General Stuart was a great tease, and affecting not to know of my engagement to my soldier, he expressed an eager desire to introduce

me to one of his brilliant young cavalry officers, saying:

"You know you should marry into the cavalry; an infantryman is not worthy of you."

"But I prefer the infantry, and you know I am engaged to General Pickett," I replied.

He pretended pained surprise and said:

"My! My! What a pity? You should not throw yourself away on the infantry. I am sorry for Pickett. Upon my word, he ought to be in the cavalry. He deserves it."

I defended my choice and set forth the greater advantages of the infantry service and the superior attractions of those who belonged to that branch.

"Pickett is lucky," he responded, "in having such a champion. To tell the truth, I am in love with him myself and agree with you perfectly. For Pickett can do anything. When I see him dance, I think he ought to be a dancing master. Looking at him as he rides, I think he ought to be a cavalry leader. When I hear him whistle, I think he ought to be a bird. When he sings, I think he ought to be an opera star. When he leads a charge, I feel as if the battlefield is his only place. Yes, Pickett can do everything, and do it well. As for poor me, I cannot do anything but make love."

"Inexperienced as I was, I knew that the 'Red Fox' could do all things that were beautiful and gracious and brave. As for making love, there was only one who knew his power in that art, the lovely and charming woman who possessed all his gallant heart and has worthily borne his great name through years of wearing toil and lonely sorrow.

A brilliant, dashing cavalryman, sunny as morning and vivid as the flash of a star in a dark night. In the battle or on the road a song or a laugh was always on his lips, and the hearts of his men leaped up to meet his gaiety as well as his fearlessness.

Few men go through a great war untouched by any ball except the fatal one. Such was the gift that Mars bestowed upon his brilliant follower. And the deadly shot set his blood red seal upon a youth that was immortal.

NOTICE

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD" It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat 10.00 to 11 per cent
Crude Protein 52.50 to 60 per cent
Crude Fibre 1.00 to 3 per cent
Phosphate 10.00 to 12 per cent

What Is
"Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form. It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration. It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shrapnel, or alfalfa meal.

TANKAGE recommended by all leading experiment stations. It is packed in one-hundred-pound burlap sack, plainly marked "SURE FATTEN HOG FOOD," analysis as above. It is the ideal feed to balance rations.

What "Sure Fatten Hog Food" Tankage Does.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one third.

It grows better proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANKAGE fed hogs shoo well with small shrink. While in no wise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

EXPERIENCE OF MOTHERHOOD

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism untrained for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Clears Skin of Worst Eruptions

Remarkable Action of a Remedy That Drives Every Speck of Poison From Body.

There is a strange, mysterious power in a remarkable blood medicine that finds its way through the circulation by what is known as "Divine selection." The remedy is Swift's Sure Specific, or S. S. S. Science cannot explain just why certain elements in the blood feed the bones, others nourish the hair roots, and so on. And it is this same mysterious action of S. S. S. that attacks all diseased spots, drives away all germs, heals all sores and supplants the activity of disease germs with the powerful healing action of leucocytes. Remarkable testimonials have been written that prove beyond question there is no blood disease but what can be cured by S. S. S. And in all those cases that were treated with mercury, iodine, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made by S. S. S.

There is not a blood taint of any nature that can remain in a system fortified by this most wonderful remedy, for it is absolutely pure and contains only those elements that the blood naturally assimilates, and which the tissues gratefully accept. It agrees with the most delicate stomach, even in those cases where the use of strong drugs has so weakened the digestive system that medicine cannot be given. Get a \$1.00 bottle of S. S. S. at any drug store and thus be assured of a complete cure of any eruptive blood disease. If your case is peculiar and you desire special advice write to The Swift Specific Co., Medical Dept., 127 Swift Bldg., Atlanta, Ga.

Those indebted to the Clair Coal Company should make settlement at once at the office of A. Ferguson, 220½ West State str. et.

SERIOUS ERROR IN JACKSONVILLE.

Jacksonville Citizens Will Do Well to Profit by the Following.

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even today in Jacksonville there are many residents making the same serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order, profit by this Jacksonville resident's experience.

Miss Mary Flynn, 839 Beesley avenue, Jacksonville, Ill., says: "Doan's Kidney Pills are a good remedy and act just as represented. I had sharp pains in the small of my back and also had backache, which showed that my kidneys were unnatural. Since I used Doan's Kidney Pills, I have had none of these troubles."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

QUIT CALOMEL

Thousands are Turning From This Dangerous Drug.

A Safe Vegetable Substitute is Olive Tablets for the Liver.

Dr. F. Edwards, a prominent physician of Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad effects of calomel.

Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.

His distrust of the uncertain drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is today in possession of the long-sought for combination, which is in the shape of a little sugar coated, olive-oil colored tablet.

The results of 17 years' experience and practice are embodied in these marvelous little tablets.

They are called Dr. Edwards' Olive Tablets. They oil the bowels, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as thousands of others who have suffered and were afraid of calomel.

They are gentle in their action, yet always effective. They bring about that exuberance of spirit that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities. 10c and 25c per box.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newb's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as a Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

TWO TAX PROPOSITIONS.

There is some tendency toward confusion of two tax measures pending at Springfield. The distinction between them, however, is clear, and is important to bear in mind.

One measure is the resolution for the submission to the voters in November, 1914, of the tax amendment to the constitution recommended by the Illinois special tax commission and favored by the voters, 341,189 to 187,467, on November 5, 1912. The vote last fall was taken under the public policy act and was advisory, but if the legislature heeds the advice and submits the amendment, a majority of the voters in 1914 can write it into the constitution. This amendment by removing a restriction from the constitution will permit the legislature to adopt methods of assessing the personal property which now escapes, by such modern and scientific methods as have been found successful in other states.

If the experience of other states is any indication this proposed amendment would be a first step in adding to the public treasuries of Illinois millions in additional revenues which could not otherwise be secured without unduly increasing present unjust burdens on land and fixed property. This amendment has been declared by all students of taxation to be essential to any real tax reform in Illinois. It will take a two-thirds vote in both house and senate to submit it for the approval of these people and those who are interested in relieving an unjust tax situation, which places a relatively higher burden on land now than it did in 1873 should talk to or write to their representatives and senators about the tax constitutional amendment.

Would Abolish Board Equalization. The other proposed measure is a bill for a law to abolish the present state board of equalization which is composed of one member elected each congressional district and the auditor of public accounts ex-officio, and to replace this board with a state tax commission of three members appointed by the governor. This commission would have power to pass on assessment matters in any county in the state; to overturn decisions of local assessors and boards of review; to appoint special assessors and to direct reassessment of property in any county, as well as to perform the functions of the present state board of equalization.

Fear is expressed by many that the exertion of so much centralized power in an attempt to enforce a system of taxation which the experience of other states and of 40 years in this state show to be absolutely unenforceable, would result merely in emphasizing existing inequalities and would increase valuations and taxes still further on farm lands, real estate and visible property generally. Even those who believe in centralizing so much power in so few hands, seem inclined to believe that the creation of such a commission in advance of the submission of the much needed and more fundamental tax amendment to the constitution would do no good and might not be particularly desirable. However, the tax commission proposition has many strong friends and will be one of the big legislative questions to be threshed out by the present general assembly—Illinois Farmers' Institute.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Dethon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.

DURABLE ROAD CONSTRUCTION.

Amount Needed in Illinois—Materials and Cost—No Added Tax on Farm Property.

For the past seven years the state highway commission has been engaged in collecting information relative to road construction in all parts of the state, and the information secured is based upon the actual construction of various kinds of roads in nearly every section of the state. Carefully compiled statistics show 95,000 miles of roads in Illinois; that 1,500 of these main roads carry 90 per cent of all traffic. This leads to the conclusion that there is no necessity for permanent improvement for more than 15 to 20 per cent of the total mileage.

An important matter to be considered is making permanent road improvement is the character of the traffic to be carried, and the type of road selected should be one that will prove most satisfactory—most economical to maintain in a condition convenient and comfortable for travel. All things considered, the choice of durable forms of road surface for the main roads of Illinois is between brick and concrete. The traffic census shows a rapid changing from horse drawn to motor vehicles, and that if 17 per cent of the roads were made permanent they would take care of 80 per cent of the traffic. With these facts in mind let us consider the feasibility of making the roads of Illinois permanent.

Necessary Widths.

It is believed that for a considerable time to come a 20 foot paved width of road will accommodate two lines of fast moving traffic, as large an amount as the present generation can reasonably be expected to provide near the large centers; that 16 feet with 2 feet of macadam on each side will provide for two lines of wagon traffic, farther away, and be both safe and comfortable; that still further away from the center of traffic where passing is less frequent a 10 foot paved space with 4 feet of macadam on either side will suffice, and that on many miles of the ordinary main roads which carry less traffic and less passing, 9 feet of paved space with 3 feet of macadam on each side will prove ample for many years to come.

The 20 foot road is designated as class A; the 16 foot as class B; the 10 foot as class C, and the 9 foot as class D. The traffic conditions requiring the class A road are found near Chicago, and other large centers, and possibly 1,500 miles, or 10 per cent of the total mileage of the main roads of the state is sufficient for this width.

Concrete Construction—Cost.

An estimate of the cost of these roads has been prepared on the following basis; crushed stone or gravel

has been assumed at \$1.50 per cubic yard on board cars at destination. The average haul for material has been taken at about two miles. The cost of cement has been assumed at \$1.20 per barrel. The concrete has been estimated at an average thickness of 7 inches, the macadam at 6 inches. An allowance of 8 to 10 cents per square yard has been made in each instance for shaping the roadbed and minor excavations. Heavy cuts and fills, required on some roads to bring them to proper grade, and culverts and bridges have not been included in this estimate, as it is deemed these improvements are of as much advantage to earth roads as to any other form of road, an improvement expected to be made whether improved surface is placed on them or not.

Under these assumptions the cost of these various classes of roads and the approximate mileage of each in the state to make 17 per cent of all roads paved are as follows: 1,500 miles of class A, at \$14,600 per mile; 3,000 miles of class B, at \$12,600 per mile; 4,500 miles of class C, at \$8,600 per mile; 6,000 miles of class D, at \$7,500 per mile, making 15,000 miles of road, costing \$142,200,000.

No Added Tax on Farm Property.

While this undertaking requires an immense sum, it is not at all beyond possibilities of accomplishment and moreover it is not contemplated that all of the 1,500 miles will be built within a few years. It is probable that not less than fifteen to twenty-five years will be consumed before the entire system is completed. The cost of these roads will thus be distributed over a period of years, one-half of which will be paid by the state from sources of income that need not put additional tax on farm property. For example, the license fees on automobiles, the inheritance tax, a corporation tax, a possible tax on all stock exchange transactions, and other sources in no wise related to farm property, may be made available to pay one-half of the cost. The other half will fall upon all taxable property in the counties, so that only a portion of half the cost would fall upon farm property.

When it is considered that in the past ten years the farm property has been taxed for good road work approximately five millions of dollars a year and that taxes to be asked of the farmer for this system would be but a fraction of what he has already paid, the plan as suggested becomes neither impossible nor visionary.

It is also generally conceded that no such mileage can be built and maintained under our present administrative system. It has not been elsewhere, nor can we expect any better results in Illinois, so if this mileage of roads is to be built it must

be done, as experience has proven, by the aid of the state—H. A. McKens, Secretary Illinois Farmers' Institute.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCKS CONTINUE SLOW AND DRAGGING

NO IMPROVEMENT SHOWN IN QUOTATIONS.

Buyers Were Scare and No Sentiment Was Bearish—Scattering Gains Made in Forenoon But Later the Whole List Fell Off.

(By Associated Press)

New York, March 19.—There was no improvement today in the stock market which continued slow and dragging. No sentiment was bearish and buyers were scarce. Some scattering gains were made in the forenoon but later the whole list went off, a number of stocks making new records for the protracted decline. Subsequently there was a rally, and final prices showed comparatively small changes.

The course of prices centered largely around an unofficial report that the government was to proceed against American smelting under Sherman law. Smelting was sold heavily and broke four points to 63 1/2, a new low figure. The weakness spread to the other metal stocks and subsequently the whole list sold off. Union Pacific touched a new low point at 145 1/2. When, later in the day, the attorney general was reported to have denied the smelting rumors, the list rebounded sharply.

Liquidation among the specialties continued. Sugar stocks were depressed further by selling on the part of the holders who fear the effect of revision of the sugar tariff. American Sugar at 109 1/2 and beet sugar at 25 reached new low points. Sears-Roebuck, Underwood, Canning and other specialties sustained substantial losses.

New Haven rallied 1 1/2 after its recent break.

Call money touched five per cent, with the prospect of a higher rate for loans over the triple holiday which begins Friday.

Berlin bankers were again bidding for funds in this market, offering 8 1/2 and 9 per cent for loans extending to May 1.

DUST STORMS CAUSE UPTURN IN WHEAT

RAISERS IN SOUTHWEST ALARMED FOR SAFETY OF GROWING PLANT.

(By Associated Press)

Chicago, March 19.—Dust storms in Kansas caused a sharp upturn today in wheat. The market closed strong, 1/2 to 3/4 c. higher than last night. The day ended with corn 1/2 to 3/4 c. up and oats at an advance of 1/4 to 1/2 c. Provisions showed a net loss of 2 1/2 to 2 3/4 c.

Reports of the dust storms in the southwest were accompanied by assertions that wheat raisers were alarmed for the safety of the growing plant. Later reports from experts who had travelled through the sections affected said that moisture was plentiful, that the soil was too wet to be disturbed by high winds and that the wheat was in no danger. The trade, however, had already taken a crop damage scare and bullish sentiment was unchecked. Higher foreign markets helped the advance in wheat here, cables showing a firmer tone at Liverpool, firmer Canadian offers and increased continental demand. There was also buying on the part of export interests against sales in Liverpool. There were occasional sharp reactions from the bulges but the market at no time was lower than at the close yesterday.

Seaboard clearances of wheat and flour equalled 301,000, primary receipts of wheat were 621,000 bushels compared with 358,000 a year ago.

Expectations of further curtailment of corn receipts owing to the near opening of the busy farm season and predictions of rough weather helped the market. A leading house bought on a scale that sent shorts to cover. In oats active cash demand made friends for the bull side.

A sharp break in hogs weakened the provision list and much of the trading consisted of changing from near to deferred months by longs.

MRS. WADE WILL NOT PROSECUTE BAHN FOR KIDNAPPING

Chief of Police Davis Returns From
Slaters With Little Boy Taken
From Jacksonville Tuesday—Mo-
ther Is Satisfied.

Chief of Police Davis returned last night from Slaters, Mo., bringing with him Leonard Wade the five year old boy taken away by John Bahn Tuesday afternoon. The man and the boy were apprehended at Slaters on request of the authorities here, but Mrs. Wade went to the train when Chief Davis started for Slaters and told him not to bring Bahn back, that she would not prosecute. She said that she wanted the little boy back and that would be satisfied if he was returned.

Bahn under the circumstances could do nothing but surrender the lad to Chief Davis and was glad to find out that he was not to be taken into custody himself. After his release he indicated that he might go on to California as he had a ticket for that state but he made no definite statement as to his intentions. The boy was reluctant to leave Bahn and protested to Chief Davis that he did not want to come back and said he would rather ride on the cars with Bahn. However, after he and the Jacksonville officer were well started on the homeward journey he made no special objections and seemed to have a very good time on the train. He is a bright and attractive boy and made a number of friends during the journey and these associations of course helped him forget the tedium of travel. Chief Davis did not know just what he would do with such a youthful charge and had visions of a lot of trouble without the necessary nursery knowledge to help him out, but he got along in fine shape.

FARWELL PARTY.

About fifty neighbors and friends gathered at the home of Mrs. Joe Palaski to say farewell to Mrs. Peter Robarge, as she is to live in Grand Rapids, Mich. Mr. Robarge left about four weeks ago for Grand Rapids, where he has a fine position in the Pere Marquette Shop under Mr. O. G. Brough, formerly of Jacksonville. Mr. and Mrs. Robarge came here twenty years ago from Muskegon, Michigan and have made many warm friends here. For nine years they have lived in the same house and so have become closely identified with that neighborhood. A handsome table cloth and a center piece were presented. Mrs. Robarge by her friends as an evidence of their esteem and every one in the company joined in expressions of good will and hoped for the happiness of Mr. and Mrs. Robarge in their new home. Excellent refreshments were served.

Mrs. Palaski was assisted in entertaining by Mrs. Allan Franz, Mrs. Thomas Galtens, Misses Jennie Thompson and Eugenia Rustmeyer.

Mrs. Robarge left for Chicago to visit her sons and later will go to Grand Rapids.

FUNERAL NOTICE.

Funeral services for Mrs. Martha Ann Duncan will be held at Mt. Emory Baptist church this afternoon at 2:30 o'clock in charge of Rev. A. A. Russell. Interment will be made in Jacksonville cemetery.

CONDITIONS AT ST. CHARLES HOME ARE DESCRIBED

Writer in Institution Quarterly Tells
of Good Atmosphere—Another
Home May Be Established.

In connection with the agitation throughout the state for another state school for boys, similar to that located at St. Charles, a report of recent inspection of the latter, published in the last issue of the Institution Quarterly, throws strong light upon its methods, lack of restraint and normal home-like atmosphere. The inspector writes: "I rode from Geneva to the boys' school in a horse drawn vehicle. It was night long before I reached the first farm. As I proceeded along the public road, I had to pass two of the school's farm colonies. Though it was dark, the hour was early, and the homes were lighter so I could plainly see what was going on inside.

"Both of them appeared to be typical farm homes. Some of the boys with lanterns were engaged about the barns. Others who had finished their day's labor were seated in the parlor or sitting room, some of them reading, others talking.

"On the long road from the main highway to the school buildings, I passed a group of older boys trudging home after a day's work somewhere on the farm. There was one civilian with them. There was nothing to prevent them from breaking for liberty. The night was so dark that I could not distinguish but them twenty-five feet ahead. But there was no sign of discontent. They were talking and laughing, taking their time and acting as boys would be expected to act.

"I was totally unobserved. As I passed the cottages, none knew that a stranger's eye was upon them, but in the day rooms and in the basement, play rooms, there were the natural signs of boy life.

"Early the next morning I was awakened by the shouts and laughter of boys at play, and I looked out the window towards the play grounds and ball diamonds in the rear of the five or six cottages that extended in a line north from the administration building. There was no employee about. There was total absence of profanity and roughness. Every cottage had a game of base ball in progress at the same time, each group of boys upon their own grounds.

"Later in the day when there was another period of play, I saw those boys again. Among them there appeared the housemother of one of the cottages, a little woman who evidently loves athletic sports and knows the games.

"She stood upon the pitcher's mound and raising her two hands with ball clasped tightly between them above her head in perfect imitation of the regulation pitcher brought it down and then heaved it across the plate and a kid at bat swung viciously at it and missed it to the great amusement of his companions. Every lad in that cottage was there, and he was proud of his housemother. Didn't she have the right spirit and didn't she show it? Neither she nor any others in that crowd knew that they were being watched from a distance.

"On this visit I made the rounds of the farms and gardens where harvest and the rebuilding of three farm cottages were in progress.

"The farm buildings at all these colonies have been assembled and rebuilt on concrete foundations with concrete floors, mangers and stalls.

"All the work on and about these three cottages has been done by institutional employees and boys under their direction, with this one exception, that a man has been employed to put on the stucco. All the carpenter, concrete and other work necessary to transform these cottages, has been done by the boys and their instructors.

"I have suggested that while for bookkeeping purposes it may be necessary to retain the present alphabetical appellation, the colonies might be given appropriate names, such as 'The Pines,' or 'The Elms,' etc.

"Along this road and almost directly opposite the main buildings, is located what is probably the best two acres of corn in that entire neighborhood. It is the result of an experiment. The land last fall was given a covering of manure. There was added a half ton of phosphate rock per acre, and to this later on, a ton and a half of crushed lime stone per acre. The manure came from the institution stables. The phosphate cost seven dollars and the limestone three dollars per acre. The corn is prodigious in its growth and the estimate of ninety bushels to the acre is considered conservative. The rest of the farm will do well if it produces seventy on an average. If these two acres produce ninety bushels they will have demonstrated the value of fertilization. According to theory, it will be unnecessary to add anything to the land for several years so that the cost of the elements put on this year spread over a term and not charged to one year.

"Some very exceptional crops have been raised in the gardens and a drive over them, bears out all the reports that are heard.

"The onions and potatoes were being harvested today, and I could see for myself. The onions are producing about 500 bushels per acre. Judging from the yield so far as they have been harvested, the potato patch will produce 3,000 bushels, or enough to supply the school throughout the winter, a thing that has never been done.

"The interesting point in potatoes and onions is the contradiction this yield huris at the commonly accepted theory in this section of the country, that these two crops cannot be raised on this soil.

"Last year an experiment with potatoes was made on four acres which produced 200 bushels per acre. This spring between ten and twelve acres were planted to potatoes and the yield is coming up to last year's average. The potatoes

are large, smooth and solid and of good quality and flavor. How well they will keep is yet to be determined, but that the soil will produce an adequate yield appears to be proven. The same is true of the onions. An experiment was made last year which justified a large acreage this season. How well they will keep, only the future will tell.

"Other garden trucks have done well and an immense amount of supplies are being stored for the winter, both for man and beast. A large field of sugar beets for the dairy herd has proven successful in its harvest. Turnips, carrots, celery, asparagus, beans, peas, tomatoes, cucumbers, sweet corn have been raised in abundance, and after feeding them as frequently as compatible with good diet, the institution cooks have put away large supplies for the winter.

W. S. Skelton, a merchant at Stanley, Ind., says he would not take \$100.00 for the relief a single box of Foley Kidney Pills gave him. "I had a severe attack of kidney trouble with sharp pains through my back and could hardly straighten up. A single box of Foley Kidney Pills entirely relieved me." City Drug Store—J. A. Obermeyer.

Mr. and Mrs. Ora Watkins and Miss Florence Watkins expected to leave this morning for Los Angeles, Calif., where they expect to reside. Miss Watkins, however, will only remain until Christmas.

GRACE CHURCH NOTES.
The Wednesday evening prayer meetings on Pilgrims' Progress are well attended and full of interest. The series will close early in April with an illustrated lecture on the entire book.

Thursday evening the Grace church brotherhood will give a banquet after which will be the annual election of officers and a lecture by Rev. Frederic Baylis of Chapin on "From the Breadline to the Pulpit." Plates at the banquet, 25c.

Next Sunday will be observed at all the services with appropriate music. The Sunday school will have some fine Easter music. Rev. Mr. Miller will preach in the morning on "The Deity of Christ." At the evening service a sacred concert will be given by the chorus.

THE BAND CONCERTS.

Editor Journal:
That Sunday stuff touching the matter of band concerts was the real thing. Such musical talent as Jacksonville can command, especially with Jeffries "coming back", is something to congratulate our selves over and it would be the height of folly not to make the best of what we have. Take our neighboring city of Peoria. The Sunday concerts at Glen Oak and Bradley parks on alternate afternoons not only afford entertainment of the most innocent sort for the good citizens of that town but serve to draw thousands of visitors. But Peoria doesn't top there. Every Thursday night the Spencer Band, Col. Amund Moll, director, plays to thousands in the downtown district. However, I like your idea of Wednesday afternoon concerts in Central Park better than the Peoria plan. There's solid sense in that notion and it needs only to be tried to prove the truth of the assertion. It ought not to be a very difficult matter to raise a sum sufficient to cover the cost of a series of weekly concerts. At any rate, its worth making the attempt. It will be remembered with what a feeling of regret the news of Mr. Jeffries going was received and how sorely he has been missed. Now that the good news of his "coming home" has been made known its up to Jacksonville to see that he never has another reason for wishing to leave. Such a man is an invaluable asset to any community and so is a first class band. In times past Jacksonville has been known as the home of the best bands in Illinois and it behooves us to restore that reputation. Add to this the great pleasure and uplifting influence of inspiring music and you have an ideal condition of affairs. Here's hoping that your idea is taken up and developed by the Chamber of Commerce. It will pay. No question of that.

Respectfully,
Music Lover.

WILL ENTER REAL ESTATE BUSINESS.

George O. Bradford, of Waverly who has been attending the law school of the University of Chicago, expects soon to engage in the real estate business in Chicago. He attended Illinois college and then went to Princeton where he was graduated last June. Business law has been his specialty at the University of Chicago.

FUNERAL NOTICES.

The funeral services of William Cade will be conducted Friday morning at 10 o'clock from the Woodsen Christian church and burial will be made in Bethel cemetery. Friends are kindly requested to omit flowers.

The funeral services of J. D. Meredith will take place from the family residence in Franklin Saturday afternoon in charge of Rev. Peter Kettle of the M. E. church.

BROTHER OF CAPT. TRANEY ROUGHLY USED BY KANSAS CITY BURGLARS

Men Bind Theatre Watchman and Loot Safe, Escaping With \$2500

Capt. James Trahey of the local police force has received word from Kansas City telling of the burglary of the Garden City theatre of that place, of which his brother, Jerry Trahey, was watchman. The watchman was bound by the burglars, who escaped with \$2,500.

Mr. Trahey had gone out to lunch and when he returned, going up the stairs of the theatre, he was held up by two masked men, who tied him and bound his hands with a pair of handcuffs. The men then robbed the safe of \$2,500 and made their escape. The burglary occurred about 2:30 o'clock Monday morning and the imprisoned watchman was not released until after daylight, when he was heard by a newsboy, who climbed the waterpipe along the building to reach the floor where the man was tied. It was necessary to get keys from one of the police stations to unlock the handcuffs.

This is one of a series of burglaries that have been perpetrated in Kansas City and nearby cities and the police have arrested two suspects in the Garden City theatre case.

WITH THE SICK PEOPLE.

Joseph F. DeGoveia was able to drive to Jacksonville yesterday and was warmly greeted by a large number of friends. Mr. Goveia was a patient at Our Saviors hospital for an extended period this winter and his entire sickness has covered a period of five months so that he is mighty glad to be out again.

CARD OF THANKS.

We wish to express our heartfelt thanks for the kindness and sympathy of friends and neighbors during our recent bereavement and also for the many beautiful flowers. Mr. and Mrs. Edward Kelly, and family.

SOCIAL EVENTS.

The Wednesday class met Wednesday afternoon at the home of Mrs. W. D. Sanders who is an associate member of the class. The members Sorosis were also her guests. An invitation to Mrs. Sanders' home is always received with great pleasure, as it is one of the oldest homes in town and has always been noted for its hospitality. The present occasion was no exception and the afternoon was most delightfully spent. The large rooms were most tastefully decorated with spring flowers. Dr. Hayden read, in his most delightful manner, a charming play. The guests were then invited to the dining room where around a perfectly appointed table, where tulips, hyacinths and violets bloomed in profusion, they were served delicious refreshments. The ladies departed with one more pleasant memory added to those of the past when they had been Mrs. Sanders' guests.

Mrs. William Floreth was given a happy surprise Tuesday, the occasion being her birthday. Mrs. Floreth had gone to the home of Mrs. Ollie Parker, where a meeting of the Ladies' Aid society was being held and upon her return found the guests had taken possession of her home. A splendid supper was served and a social time enjoyed. Those present were Mrs. Mathew Miller, Mrs. H. D. French, Mrs. W. D. Doying, Mrs. J. H. Danskin, Mrs. Harry Brady, Mrs. Ollie Parker, Mrs. C. C. Cochran and Mrs. John A. Vickery.

Mrs. George Burmeister of Arcadia entertained a number of friends at a quilting party Wednesday. A four course dinner was served at the noon hour and aside from the work done, a social time was enjoyed, and all voted Mrs. Burmeister a royal entertainer. The following were among those present: Mrs. O. M. Petefish, Mrs. J. Clark, Mrs. Claude Neill, Mrs. Newton Brainer, Mrs. Flora Thompson, Mrs. Ellis Thompson, Mrs. Lynd, Mrs. Bert Hall, Mrs. John Burmeister, Miss Bessie Brainer, Miss Cora Rudisill, Miss Ellen Deatherage, all of Arcadia and Mrs. D. E. Kennedy of Jacksonville.

FAVOR TOWNSHIP HIGH SCHOOL FOR JACKSONVILLE

Well Known Minister and Others May Circulate Petition—Believe That Future Growth Would Be Aided by Formation of New District—Law is Quoted.

The discussion concerning the proposed township high school for Murrayville and the fact that an election has been called by Supt. Montgomery to decide the question has given rise to talk about a like proposition for Jacksonville. The question is not new here, however, and has been discussed at considerable length a number of times in the past but has never been put up to a vote. At present a number of well known citizens among them a prominent minister are looking into the general proposition of township high schools and are seriously considering the matter of circulating a petition and having a vote on the question.

The law relating to township high schools was so amended in 1911 that now is it not necessary to follow lines of the congressional township and the amount of territory to be included in a high school district is not fixed to an area six miles square as was formerly the case. This is illustrated in the case of the Murrayville proposed district which is seven miles not and south and six miles east and west. A number of votes in any understood territory may join in a petition asking for an election and when such election is held the question is up to voters living within the territory described.

The Jacksonville minister who is a firm believer in the township high school ideal said yesterday: "I know something of the work and history of several township high schools and they are all successful. There are thirty or more such schools in Illinois I think and all of them are doing excellent work. In one of these schools a faculty of thirty five is employed and the apparatus and equipment is of the best. Two of the well known schools in the northern part of the state are at Joliet and Pontiac. More and more it is becoming true that the high school is the people's college and the work of the high school is so varied and so extensive and is growing in such a way that in a city the size of Jacksonville the work must necessarily be somewhat curtailed as the expenses are too heavy. If you will look into the expenses of a school system in a city like Jacksonville you will find that a heavy per cent of the money goes into the high school. If a township high school were established here then the taxes to support it would come from a considerable area, there would be more money to run the school and the tax payers of Jacksonville would be some what relieved. On the other hand the advantages would be such to farmers within the territory of the district that they probably would not enter severe objections. I believe after looking into the question that eventually we must have a township high school here if the school develops as much as desirable and without being too heavy a burden for tax payer within the city limits."

The Law on the Question.
The law on the question says "Any school township that contains a school district having a population of 1,000 or more and not exceeding 100,000 inhabitants whether operating under the general school law or governed by virtue of a special act, may be organized into a high school district by submitting the proposition to a vote of the people at a general or special election."
Upon receipt of a petition signed by fifty or more legal voters the county superintendent of schools shall forthwith order an election to be held for the purpose of voting for or against the proposition to establish a township high school by posting notices for at least ten days. If a majority of the votes cast shall be in favor of establishing a township high school, the county superintendent shall then order an election to be held within thirty days for the purpose of selecting a township high school board of education to consist of a president and six members, by giving ten days notice thereof. Two members shall be elected for one year, two for two years and two for three years. The president shall be elected annually.

"For the purpose of supporting a high school the township or territory for the benefit of which a high school is established under the provisions of this act shall be regarded as a school district and the board of education thereof shall in all respects have the powers and discharge the duties of boards of education elected under the general school law."

Should an election be held here and a majority of those voting were in favor of the proposition then a board of seven would be elected. It would then be necessary for such board to make arrangements for a school building and such a board would probably buy or lease the Jacksonville high school building.

MORTUARY

Kelly.

Funeral services for Roy Kelly were held Wednesday afternoon at 2:30 o'clock at Centenary Methodist church in charge of Rev. F. A. McCarty, assisted by Rev. G. W. Flagg. In the presence of a large gathering of relatives and friends, who gathered to pay their last tribute of respect. Music for the occasion was furnished by the church choir and the many beautiful flowers were cared for by Misses Leola Fanning, Marie Dodsworth and Blanche Cassell. Interment was made in Jacksonville cemetery and the bearers were: Frank Branstetter, Ralph Cowg, Charles Devlin, Louis Hildreth, Harold Ryan and Loren Fanning.

The deceased was of a bright and cheerful disposition. He had been confined to his bed for six weeks and bore his sufferings without complaint. The following poem in memory of the deceased was written by a friend.

Peaceful be thy slumber,
Peaceful in thy grave so low,
Thou no more will join our number,
Thou no more our sorrows know.

Yet again we hope to meet thee
When the day of life is fled
And in heaven with joy to greet
Where no farewell tears are shed.

Call not back the dear departed
Anchored safe where storms are o'er,
On the border land we left him
Soon to meet and part no more.

When we have this world of changes
When we leave this world of care
We shall find our missing loved ones
In our father's mansion fair.

It is sad that one we cherished
Should be taken from his home
But the joys that do not perish
Will live on in memory.

Just these few years we spent to-
gether,
All the happy golden hours
Shall be cherished in remembrance
Fragrant sweets from memories
flowers.

Farewell dear, but not forever
There will be a glorious dawn
And we shall meet to part no more
On the Resurrection morn.

Through thy darling form lies
sleeping
In the cold and silent tomb
Thou shalt have a glorious waking
When the blessed Lord doth come.

Sooy.
The two weeks old child of Mr. and Mrs. Percy Sooy, residing east of Murrayville, died Wednesday afternoon. Besides the parents, two brothers and two sisters survive. The funeral will be held Friday afternoon at 3 o'clock from the Murrayville Christian church.

Weeks.
The funeral services of Mrs. Mary L. Weeks were conducted at Meredosa Wednesday morning at 10 o'clock, in charge of Rev. Clyde Darsie, pastor of the Central Christian church. The beautiful flowers were in charge of Misses Ethel Northrup and Miss Mabel Forrester of this city. Interment was made in

Oakland cemetery and the bearers were Messrs. William Hauser, Douglas Williams, Leslie Williams, William Bennett, August Bennett and David McLain.

There was a large number of friends in attendance at the services and aside from the members of the immediate family who went from Jacksonville were Mr. and Mrs. George Weeks, Miss Elsie Weeks and Miss Mona Weeks. Rodney Weeks of New Madrid, Mo., a son of the deceased, was not able to be present.

Jackson.
Mrs. Joseph Gaul has received word of the death of her father, Thomas Jackson who died Saturday morning, March 15th, at the home of his daughter, Mrs. Arthur Cosner in Los Angeles, Calif., where he had made his home for the last two years. Funeral services were conducted Monday from the daughter's home and interment was made in Los Angeles.

Mr. Jackson was born near Pittsburgh, Pa., Jan. 22, 1838 and came to this country in early life. He was a veteran of the civil war and after the war returned to Illinois, where he engaged in the occupation of farming, living for a great many years in the Cracker Bend neighborhood and also in Greene county. On account of poor health he went west two years ago.

He was married to Miss Mary Smith, who with one daughter preceded him in death. Three daughters surviving him, Mrs. Arthur Cosner of South Pasadena; Mrs. Arthur Cosner of Los Angeles; and Mrs. Harry Pies of Upland, Calif.

Cole.
Bernard Cole has returned from Carlville where he attended the funeral services of his grandmother, Mrs. Elizabeth Cole, widow of the late John Cole. The services were conducted by Rev. Mr. Hostetter, pastor of the M. E. church of Nilwood. The bearers were all grandsons, Frank, Harry, Bertie, Bernard and Clyde Cole and Frank Whitaker.

The deceased was 89 years of age having been born in Jonesboro, Tenn., May 10, 1828. She married John T. Cole of Tennessee, Nov. 14, 1845. They moved to Macoupin county in 1853.

The children surviving are Samuel Cole and Mrs. B. H. Wood of Carlville; Thomas, Oscar, Wesley and Everett Cole and Mrs. R. C. Adams of Hickory Point; Mrs. F. B. Huber of Nilwood and Mrs. Jane Johnston of Hettick. There are 24 grandchildren, 16 great-grandchildren and one great-great-grandchild. Mr. Cole died just a year ago at the advanced age of 96 years.

NOTED PIANIST WILL

BE HERE TUESDAY NIGHT

Mme. Sturkow Ryder, the Celebrated Musical Artist to Give Program—Will Be Assisted By Miss Mary Hester Cleary, Reader.

Lovers of music will be given a rare opportunity Tuesday evening when Mme. Sturkow Ryder, the celebrated pianist appears in concert. She will be assisted by Miss Mary Hester Cleary, dramatic reader. The concert will take place in Music hall at the Woman's college at 8 o'clock.

Mme. Ryder has just returned from a successful tour of the Pacific coast states in company with Caroline White. On March 29, Mme. Ryder will sail for Europe where she is to give three concerts. Of this noted pianist, Glen Dillard Dunn, the great musical critic says: "One of the first soloists to appear with the New York symphony orchestra under Mr. Damrosch was Mrs. Ryder, an exceedingly talented pianist. She possesses a remarkably even, fluent technique, that belongs pre-eminently to a certain eccentric but brilliant Russian pianist."

Miss Cleary of this city is too well known as a dramatic reader to need any further introduction. Her work is of a superior order and highly entertaining. The program is given under the auspices of Trinity church.

PASTOR PREACHED FORCEFUL

SERMON AT CENTENARY CHURCH

Rev. Mr. Flagg Takes For His Subject "Alone With Friends"—Good Congregation Present.

"Alone With Friends" was the subject of a forceful sermon delivered by Rev. G. W. Flagg at the Wednesday evening service of the revival which has been in progress at Centenary church for more than week. Quite a large congregation attended the services and at the conclusion of the sermon a large number answered the request to come forward and express a resolve to live a Christian life.

In the course of his sermon Mr. Flagg pointed out that in the account of the passion of Christ nothing is said of what He did on Wednesday other than "He went down to Bethany," and that as the Bible tells that the next day (on Thursday) He returned from Bethany, where He visited with Mary, Martha and Lazarus, that the supposition is that He spent the day there. Mr. Flagg said that in the lives of persons things which seem very commonplace happen, yet they are so personal and sacred that it isn't the wish of people to let them become known to the world, and that this was perhaps the case with Christ's Wednesday of Passion week. The sermon was forcefully delivered and heard with deep interest by the congregation.

KOHLSAAT SUFFERS SLIGHT

HEMORRHAGE OF THE BRAIN

Taken Suddenly Ill At Hotel in New York and is Unable to Articulate Clearly—Rest Will Restore Him to Health.

New York, March 19.—H. H. Kohlsaas of Chicago Inter-Ocean, it was learned tonight, was taken ill at his hotel Saturday when he returned from the steamer pier after seeing Mrs. Kohlsaas off on her trip. He was at a loss to account for his symptoms, one of which was an inability to articulate clearly, and summoned a physician, an examination revealed that he had suffered a slight hemorrhage of the left side of the brain. He has been improving steadily since and today felt much better, it was announced.

Perfect rest has been prescribed for him and this is all that is necessary, it was stated, to restore him. The members of his family have been notified that there is no necessity for their coming from Chicago and in two weeks time it is expected he will be in condition to travel to that city.

GRASS AND RUBBISH BURNS.

PAUL SELBY DEAD AT HOME NEAR CHICAGO

NESTOR OF ILLINOIS NEWS-PAPER MEN CLOSES LONG LIFE.

Became Editor of the Morgan Journal While Attending Illinois College—Was One of Editors Who Called Decatur Convention Where Republican Party Was Organized—Authority On State Politics and History.

An Associated Press dispatch Wednesday night announced the death of Paul Selby, veteran Illinois editor at the home of his son-in-law, Rev. Harmon Johnson at River Forest, near Chicago. Mr. Selby was the last of the Illinois editors who joined in the call for the meeting held at Decatur which resulted in the organization of the Republican party. At that time Mr. Selby was the editor and owner of the Morgan Journal, published in Jacksonville. He assumed the editorship while he was a junior in Illinois college in 1852 and continued with the Journal until 1858. For a great many years he was an active force in the politics of the state and until a very few years ago continued to write upon political and historical subjects. Probably no man in Illinois was better posted upon the history of his state.

Born in Ohio.

Mr. Selby was born in Pickaway county, Ohio, July 20, 1825, and so was in his 88th year at the time of his death. As a young man he came with his parents to southern Illinois and spent four years in teaching, mainly in Madison county. In 1848 he came to Jacksonville and entered the preparatory department of Illinois college. He continued his work there until his junior year when he became the editor of the Morgan Journal. He remained with the Journal until 1858 and it was in that memorable year that the Republican party was organized at the meeting called by Republican editors and held in Decatur. The Morgan Journal took an active part in the discussions preparatory to that convention and Mr. Selby was one of the leading figures at the convention itself. Prior to that time he had been a member of the anti-Nebraska state convention which met in Springfield in October, 1854. In 1856 he presided over a conference of anti-Nebraska editors held in Decatur and this body appointed the first Republican state central committee, resulting in the nomination of the First Republican state ticket. In 1859 Mr. Selby prepared a pamphlet giving a history of the celebrated

canal scrip fraud which was given a wide circulation.

Denounced by Southerners.

In 1859 he went south and was engaged in teaching for two years. Just two weeks before the fall of Fort Sumpter he was denounced to his southern neighbors as an abolitionist and was falsely charged with having been connected with the underground railroad, in letters from secession sympathizers in the north whose enmity he had incurred while conducting the Morgan Journal. Mr. Selby asked for an investigation of the charges made against him and a number of Jacksonville citizens joined in sending letters and testimonials south in his behalf.

Long Active Newspaper Man.

In July 1862 he returned to the north and became associate editor of the State Journal remaining there until 1865. Then for a period of six months he was assistant deputy collector in the custom house at New Orleans but soon afterward went to Chicago and became identified with the newspaper world there. He was connected with the Evening Journal and the Republican in Chicago and in 1868 became editor of the Quincy Whig. In 1874 he again became connected with the State Journal and for a period of years was one of the proprietors of that paper. For six years Mr. Selby was postmaster in Springfield, his first appointment coming from President Hayes.

For thirty years Mr. Selby was actively engaged in newspaper work in Illinois and for a much longer period was identified with the work as special political and historical writer. He was a man of broad learning and culture, very gentle in his life and manners and had long been looked up to as the Nestor among Illinois newspaper men.

THREE EYE LEAGUE DIRECTORS

ADOPT 140 GAME SCHEDULE

Season Will Open April 24—President Tearney Casts Deciding Vote in Favor of Long Schedule.

Davenport, Ia., March 19.—The Three-Eye league directors at their meeting here today adopted a 140-game schedule. The season will open April 24 and close Sept. 7. The schedule, which will be drawn up by Wilson Hering of Decatur, is to be released within ten days.

Directors were equally divided on the question of a 140-game schedule or a shorter one. President Tearney was called upon to cast the deciding vote. Those favoring the longer schedule were Davenport, Peoria, Danville and Bloomington, while Decatur, Springfield, Quincy and Dubuque formed the opposition.
